This document provides updates to various D&D® game products, including core rulebooks, game supplements, and accessory products, such as the Dungeon Master's Screen and Power Cards. The products are presented in order of release date, with Power Cards at the end. Each book is separated by New Updates—revisions to rules first appearing on the date noted above—and Old Updates, which includes all previously issued updates. The updated items are presented in order of page number. Most updates describe the change and provide a brief explanation. Most updates also present the revised item in the format it appears in a book, allowing you to cut it out and replace it in your book if you wish.

You, the players, are our best source of feedback, so we encourage you to direct questions and concerns to the following places.

For rule concerns that merit updates, go to our errata forums here.

If you're not sure if a rule merits errata, or if you have a question about a rule, call Customer Service at 1-800-324-6496 (USA/Canada) or 425-204-8069 (all other countries). Customer Service is available Monday-Friday from 9 AM to 6 PM (PST) and 10 AM to 4 PM (PST) on weekends. You can also find the FAQ here.

New Updates

Accessories
Page 56: Add the following paragraphs at the end of the Accessories section. This change reflects revisions in Player’s Handbook 3. It clarifies how to use an implement as a weapon, or vice versa.

Using a Weapon as an Implement: If you’re able to use a weapon as an implement, the weapon works like a normal implement for you, but you use neither the weapon’s proficiency bonus nor its nonmagical weapon properties with your implement powers.

When you use a magic version of the weapon as an implement, you can use the magic weapon’s enhancement bonus, critical hit effects, properties, and powers. However, some magic weapons have properties and powers that are worded in such a way that they work only with weapon attacks. Also, a weapon’s range and damage die are usually irrelevant to implement powers, since such powers have their own ranges and damage expressions.

Using an Implement as a Weapon: Most implements cannot be used as weapons. However, an implement like the staff is expressly usable as both an implement and a weapon. When you wield such an implement as a weapon, you follow the normal rules for using a weapon.

When you use a magic version of the implement as a weapon, you can use the magic implement’s enhancement bonus and critical hit effects. To use its properties and powers, you must be able to wield it as an implement (see “Implement” above). Also, some magic implements have properties and powers that are worded in such a way that they work only with implement attacks.

Righteous Brand
Page 63: On the Hit line, add “+3” before “power bonus to melee attack rolls” and delete “equal to your Strength modifier.” At higher level, this bonus almost guarantees a hit when used by a cleric build that uses Strength as its primary ability score. This change brings the bonus to attack rolls in line with expectations for at-will attack powers.

Knight of Glory
Page 69: Replace the power’s text with the following text. The power’s previous text allowed a character to use a minor action during the round in which the knight was conjured to make a second attack, thereby dealing over 6d10 damage in a single round to an enemy. This change brings the power in line with damage expectations.

Cloud Chariot
Page 70: After the second sentence in the Effect line, add “You can move the chariot its speed as a move action.” The power’s Effect line gives the chariot a speed but does not describe how to move it.
Seal of Binding

Page 71: On the Sustain Standard line, replace the first line with the following: “Each time you sustain the power, you take 15 damage.” This power was too effective against solos, effectively killing any creature when it is combined with healing powers like divine regeneration.

Seal of Binding

Cleric Attack 25

Faintly glowing symbols encircle your foe, trapping it.

Daily ✦ Divine, Implement

Standard Action    Ranged 10
Target: One creature

Attack: Wisdom vs. Will

Hit: 3d10 + Wisdom modifier damage, and the target is stunned and can’t be affected by any attack other than this one until the end of your next turn.

Sustain Standard: Each time you sustain the power, you take 15 damage. The target remains stunned and protected against all other attacks. You can’t sustain this power if you are bloodied.

Orb of Imposition

Page 157: In the second sentence of the second paragraph, replace “saving throws” with “next saving throw.” This saving throw limitation is part of a larger effort to mitigate the use of saving throw penalties to lock down enemies for the duration of an encounter.

You can designate one creature you have cast a wizard spell upon that has an effect that lasts until the subject succeeds on a saving throw. That creature takes a penalty to its next saving throw against that effect equal to your Wisdom modifier.

Arcane Riposte

Page 169: In addition to replacing “Dexterity” with “Intelligence” in the second sentence of the class feature (as per the December Update), add “+ 4” after Intelligence. Between the second and third sentence, add “The bonus increases to +6 at 21st level.” The attack needs this revision to meet accuracy expectations. Without basing the attack on Intelligence and adding an inherent bonus to it, a character will rarely hit.

Arcane Riposte (11th level): Imbued with magical might, your hands bristle with arcane energy in the heat of battle. When a creature provokes an opportunity attack from you, make an opportunity attack with one of your hands (Intelligence + 4 vs. AC). The bonus increases to +6 at 21st level. Choose cold, fire, force, or lightning. You deal 1d8 + Intelligence modifier damage of that type with this attack.

Blood Pulse

Page 170: On the Hit line, replace “1d6” with “5” and replace “leaves” with “moves willingly.” This change ensures that the power’s effect isn’t used with forced movement and doesn’t exceed damage expectations by gaining any bonuses to damage rolls. Furthermore, it clarifies that a Large or larger creature takes the damage for each square it moves rather than leaves. Thus, if a Large creature shifts 1 square diagonally, it would take only 5 damage instead of 1d6 for each of the three squares it left.

Blood Pulse

Blood Mage Attack 11

A mote of crimson plasma springs from your hand, streaks across the battlefield, and detonates amid your enemies, covering them in a blood-red shroud.

Encounter ✦ Arcane, Implement

Standard Action    Area burst 3 within 20 squares
Target: Each enemy in burst

Attack: Intelligence vs. Will

Hit: 2d6 + Intelligence modifier damage, and until the end of your next turn the target takes 5 damage for every square it moves willingly.

Lasting Frost

Page 203: On the Benefit line, replace “Any” with “Once per turn, the first.” Also, replace “until the end of your next turn” with “after the attack. The vulnerability lasts until the end of your next turn.” This change limits the potency of this feat when used with close attacks and area attacks. The revision mitigates damage from builds focused on capitalizing on cold vulnerability. It also clarifies that the timing of the effect occurs after the attack is completely resolved.

Benefit: Once per turn, the first target you hit with a power that has the cold keyword gains vulnerable 5 cold after the attack. The vulnerability lasts until the end of your next turn.

Divine Miracle

Page 175: Replace the feature’s text with the following text: “The first time you expend your last remaining encounter attack power during an encounter, you regain the use of one encounter attack power of your choice.” This change limits recursive attacks through action-granting powers, such as trip up, follow-up blow, and steal time.

Divine Miracle (30th level): The first time you expend your last remaining encounter attack power during an encounter, you regain the use of one encounter attack power of your choice.
**Hellfire Blood**

Page 195: On the Benefit line, delete “feat.” This change ensures that this feat continues to provide a benefit despite changes to the Weapon Expertise and Implement Expertise feats.

**Benefit:** You gain a +1 bonus to attack rolls and damage rolls when you use a power that has the fire or the fear keyword.

---

**Symbol of Power**

Page 237: In the item’s property, replace “to saving throws” with “to the first saving throw.” This saving throw limitation is part of a larger effort to mitigate the use of saving throw penalties to lock down enemies for the duration of an encounter.

**Symbol of Power**

---

**Bonuses and Penalties**

Page 275: Replace the last paragraph of the Bonuses section with the following text. This change reflects revisions in *Player’s Handbook 3*. It is intended to limit bonuses from stacking in unintended ways, such as from feats like Echoes of Thunder or Oncoming Storm used in conjunction with close or area attacks.

Some bonuses are untyped. Bonuses that have no type add together. However, if you gain multiple untyped bonuses from the same named game element (a power, a feat, a class feature, and the like), only the highest bonus applies, unless stated otherwise. For example, if you spend an action point and can see two warlords who have the Tactical Presence class feature, you gain the bonus to attack rolls from only one of the warlords, whichever one provides the higher bonus.

---

**Durations**

Page 278: Replace the existing text in the Overlapping Durations bullet with the following text. This change reflects revisions in *Player’s Handbook 3*. It clarifies how to adjudicate durations for effects that end with a saving throw.

✦ Overlapping Durations: When you are subjected to identical effects that end at different times, you ignore all the effects but the one that has the most time remaining. Effects that a save can end work differently, since you don’t know when they’re going to end. You, therefore, track effects that a save can end separately from effects that end at specific times.

---

**OLD UPDATES**

**Retraining**

Page 28: In the fourth sentence of the feat section, replace “heroic tier feats” with “heroic tier feats and paragon tier feats.”

**Dilettante**

Page 42: Replace “an at-will power” with “a 1st-level at-will attack power.”

**Dilettante:** At 1st level, you choose a 1st-level at-will attack power from a class different from yours. You can use that power as an encounter power.

**Bonus At-Will Power**

Page 46: Replace “at-will power” with “1st-level at-will attack power.”

**Bonus At-Will Power:** You know one extra 1st-level at-will attack power from your class.

---

**Damage Types**

Page 276: After the first two paragraphs in the Damage Types section, add the following paragraph. This change reflects revisions in *Player’s Handbook 3*. It clarifies what happens to keywords when a power’s damage type is changed.

If the damage types in a power change, the power both loses the keywords for any damage types that are removed and gains the keywords for any damage types that are added (the poison keyword is removed from a power only if that power neither deals poison damage nor has any nondamaging effects). For example, if a wizard casts ray of frost through a flaming staff and uses the staff’s ability to change the damage to fire, ray of frost gains the fire keyword and loses the cold keyword for that use, since the power is dealing fire damage instead of cold damage. That use of the power can therefore benefit from effects, like feats, that affect fire powers, but not from effects that affect cold powers.”
Keywords
Page 55: Replace the fourth paragraph with the following text.
Resistance or immunity to one keyword of a power does not protect a target from the power’s other effects. Also, resistance doesn’t reduce damage unless the target has resistance to each type of damage from the attack, and then only the weakest of the resistances applies. For example, a character who has resist 10 lightning and resist 5 thunder who takes 15 lightning and thunder damage takes 10 damage because the resistance value to the combined damage types is limited by the lesser of the two resistances.

Reliable
Page 55: Replace text with “Reliable: If you don’t hit when using a reliable power, you don’t expend the use of that power.”

Reliable: If you don’t hit when using a reliable power, you don’t expend the use of that power.

Accessories
Page 55: In the second sentence, replace “If you have a proficiency bonus to attack rolls and damage rolls from your weapon” with “If you have a proficiency bonus to attack rolls from your weapon.”

Accessories: These keywords identify items used with the power. If you have a proficiency bonus to attack rolls from your weapon or an enhancement bonus to your attack rolls and damage rolls from a magic weapon or an implement, you add that bonus when you use a power that has the associated keyword.

Target
Page 57: Replace the first paragraph with the following text.
If a power directly affects one or more creatures or objects, it has a “Target” or “Targets” entry. Some powers include objects as targets. At the DM’s discretion, a power that targets a creature can also target an object, whether or not the power identifies an object as a potential target.

 Conjurations
Page 59: Replace the second paragraph with the following text.
Unless a power description says otherwise, a conjuration cannot be attacked or physically affected, and a conjuration does not occupy any squares.

Guardian of Faith
Page 64: Add “Creatures can move through the space occupied by the guardian” to the power’s effect.

Replace “Any creature” in the fourth sentence of the Effect line with “Any enemy.”

Guardian of Faith
Cleric Attack 1
You conjure a ghostly guardian, indistinct except for a glowing shield emblazoned with your deity’s symbol. A burst of radiance erupts from it to sear foes that move next to it.

Daily ✦ Conjuration, Divine, Implement, Radiant
Standard Action Ranged 5
Effect: You conjure a guardian that occupies 1 square within range. Creatures can move through the space occupied by the guardian. Every round, you can move the guardian 3 squares as a move action. The guardian lasts until the end of the encounter. Any enemy that ends its turn next to the conjured guardian is subject to a Wisdom vs. Fortitude attack. On a hit, the attack deals 1d8 + Wisdom modifier radiant damage.

Divine Armor
Page 68: Delete the Healing keyword. The keyword is incorrect because the power provides no healing.

Divine Armor
Cleric Utility 16
As you mutter a fervent prayer, the power of your god encases you and healing motes of silver light surround you and all nearby allies.

Daily ✦ Divine
Standard Action Close burst 3
Targets: You and each ally in burst
Effect: You gain a +2 power bonus to AC, and all targets gain resist 5 to all damage until the end of the encounter.

Punishing Strike
Page 71: On the Attack line, replace “Strength + 2” with “Strength + 4.”

Punishing Strike
Cleric Attack 27
With a simple prayer, you gain a sudden clarity of purpose and empower your weapon with the indomitable might of your deity.

Encounter ✦ Divine, Weapon
Standard Action Melee weapon
Target: One creature
Attack: Strength + 4 vs. AC
Hit: 4[W] + Strength modifier damage.

Solar Wrath
Page 74: Add the “Implement” keyword.

Solar Wrath
Radiant Servant Attack 11
Radiant light explodes from you like a solar flare, evaporating shadows and dealing illuminating damage to everything around you.

Encounter ✦ Divine, Implement, Radiant
Standard Action Close burst 8
Target: Each enemy in burst
Attack: Wisdom vs. Will
Hit: 3d8 + Wisdom modifier radiant damage. If the target is either an undead creature or a demon, it is also stunned until the end of your next turn.
Battle Cry

Page 74: Replace the “Implement” keyword with the “Weapon” keyword.

**Battle Cry**

Warpriest Attack 11

You attack every enemy next to you, shouting a revitalizing battle cry that inspires your allies.

**Encounter ♦ Divine, Healing, Weapon**

**Standard Action**

**Target:** Each enemy in burst

**Attack:** Wisdom vs. Fortitude

**Hit:** 2[W] + Wisdom modifier damage.

**Effect:** You and each bloodied ally within 10 squares of you can spend a healing surge.

Combat Challenge

Page 76: In the second paragraph, replace “a marked enemy that is adjacent to you shifts or makes an attack” with “an enemy marked by you is adjacent to you and shifts or makes an attack.”

In addition, whenever an enemy marked by you is adjacent to you and shifts or makes an attack that does not include you, you can make a melee basic attack against that enemy as an immediate interrupt.

Cleave

Page 77: On the Hit line, replace “an enemy adjacent to you” with “an enemy adjacent to you other than the target.”

**Cleave**

**Fighter Attack 1**

You hit one enemy, then cleave into another.

**At-Will ♦ Martial, Weapon**

**Standard Action**

**Target:** One creature

**Attack:** Strength vs. AC

**Hit:** 1[W] + Strength modifier damage. Increase damage to 2[W] + Strength modifier at 21st level.

Dance of Steel

Page 79: On the Weapon line, replace “slowed” with “immobilized.”

**Dance of Steel**

**Fighter Attack 3**

Weaving your weapon in a graceful figure-eight, you lash out with a sudden attack.

**Encounter ♦ Martial, Weapon**

**Standard Action**

**Target:** One creature

**Attack:** Strength vs. AC

**Hit:** 2[W] + Strength modifier damage.

**Weapon:** If you’re wielding a polearm or a heavy blade, the target is immobilized until the end of your next turn.

Come and Get It

Page 80: Replace the Effect line with the following: “Effect: You pull each target 2 squares to a space adjacent to you. You cannot pull a target that cannot end adjacent to you. You then make a close attack targeting each adjacent enemy.”

**Come and Get It**

**Fighter Attack 7**

You call your opponents toward you and deliver a blow they will never forget.

**Encounter ♦ Martial, Weapon**

**Standard Action**

**Target:** Each enemy in burst you can see

**Effect:** You pull each target 2 squares to a space adjacent to you. You cannot pull a target that cannot end adjacent to you. You then make a close attack targeting each adjacent enemy.

**Attack:** Strength vs. AC

**Hit:** 1[W] + Strength modifier damage.

Rain of Blows

Page 79: Replace “Primary Target” with “Target.” Delete “+ Strength modifier” from the first Hit line. Delete the Secondary Target, Secondary Attack, and Hit lines under the Weapon line, remove the Weapon line’s indent, and replace that line with the following: “Weapon: If you’re wielding a flail, a light blade, or a spear and have Dexterity 15 or higher, make the attack a third time against either the target or a different creature.” This revision updates damage to bring this power in line with other fighter powers and it improves formatting to clarify that the power allows three attacks at most.

**Rain of Blows**

**Fighter Attack 3**

You become a blur of motion, raining a series of blows upon your opponent.

**Encounter ♦ Martial, Weapon**

**Standard Action**

**Target:** One creature

**Attack:** Strength vs. AC, two attacks

**Hit:** 1[W] damage.

**Weapon:** If you’re wielding a flail, a light blade, or a spear and have Dexterity 15 or higher, make the attack a third time against either the target or a different creature.

Stalwart Guard

Page 81: Add the “Stance” keyword, replace “Close burst 1” with “Personal,” remove the Target line, and replace the Effect line with the following: “Effect: Any ally gains a +1 shield bonus to AC while adjacent to you. If you are using a shield, the bonus increases to +2 and applies to Reflex defense as well.”

**Stalwart Guard**

**Fighter Utility 10**

Your thoughts turn to defense as you begin using your weapon or shield to protect nearby allies.

**Daily ♦ Martial, Stance**

**Minor Action**

**Effect:** Any ally gains a +1 shield bonus to AC while adjacent to you. If you are using a shield, the bonus increases to +2 and applies to Reflex defense as well.
**Devastation's Wake**  
*Page 84:* Remove the Secondary Target line, and replace the Effect line with the following: “Effect: Until the start of your next turn, you can make a secondary attack as a free action against any enemy that starts its turn adjacent to you.”

---

**Steel Grace**  
*Page 88:* Replace “Containing Strike or Reaping Strike” with “cleave, reaping strike, sure strike, or tide of iron.”

**Steel Grace (11th level):** When you charge with a light blade or a heavy blade that is not a polearm, you can use cleave, reaping strike, sure strike, or tide of iron instead of your melee basic attack.

---

**Hallowed Circle**  
*Page 93:* Replace the Effect line with the following: “Effect: The burst creates a zone of bright light that lasts until the end of the encounter. You and your allies gain a +1 power bonus to all defenses while within the zone.”

---

**Thunder Smite**  
*Page 94:* Replace the parenthetical on the Attack line with the following: “If the target is marked by you, the attack can score a critical hit on a roll of 19–20.”
Hand of the Gods
Page 97: Replace “Minor Action” with “Standard Action.”

Hand of the Gods
You hold your holy symbol high above your head, and a brilliant flash of divine light explodes from it. The radiance sears your foes and inspires your closest allies.

Encounter ✦ Divine, Implement, Radiant
Standard Action Close burst 1
Target: Each enemy in burst
Attack: Charisma vs. Fortitude
Hit: 2d10 + Charisma modifier radiant damage, and the target is marked until the end of your next turn.
Effect: Until the end of your next turn, allies in the burst gain a power bonus to attack rolls equal to your Wisdom modifier.

Exalted Retribution
Page 98: On the Effect line, remove “Until the end of the encounter.”

Exalted Retribution
You land a mighty blow, and the symbol of your deity appears above your enemy’s head as a glowing red rune that only you can see, flashing brightly to warn you whenever he’s about to attack.

Daily ✦ Divine, Weapon
Standard Action Melee weapon
Target: One creature
Attack: Strength vs. AC
Hit: 4[W] + Strength modifier damage.
Miss: Half damage.
Effect: The target provokes an opportunity attack from you when it attacks (save ends). You gain a +2 bonus to the opportunity attack roll and deal an extra 1[W] damage.

Certain Justice
Page 100: On the Hit line, replace the second sentence with the following: “If the target is marked by you, it is also weakened and dazed until it is not marked by you.”

Certain Justice
You call upon your devotion to law to make your attack strike true.

Encounter ✦ Divine, Weapon
Standard Action Melee weapon
Target: One creature
Attack: Strength + 4 vs. AC
Hit: 1[W] damage. If the target is marked by you, it is also weakened and dazed until it is not marked by you.

Hospitaler’s Blessing
Page 101: Replace “attacks one of your allies” with “makes an attack against one of your allies that does not include you, whether the attack hits or misses, that ally regains hit points equal to one-half your level + your Wisdom modifier.”

Hospitaler’s Blessing (11th level): When an enemy that you currently challenge makes an attack against one of your allies that does not include you, whether the attack hits or misses, that ally regains hit points equal to one-half your level + your Wisdom modifier.

Hunter’s Quarry
Page 104: Replace the first and second paragraphs with the following text.

Once per turn as a minor action, you can designate the nearest enemy to you that you can see as your quarry.

Once per round, when you hit your quarry with an attack, the attack deals damage based on your level. If you can make multiple attacks in a round, you decide which attack to apply the extra damage to after all the attacks are rolled. If you have dealt Hunter’s Quarry damage since the start of your turn, you can’t deal it again until the start of your next turn.

Careful Attack
Page 105: On the Hit line, add “+ Strength modifier” between “1[W]” and “damage.” Also on the Hit line, add “+ Dexterity modifier” between “1[W]” and “damage.” Apply the same change to the level 21 increases. The purpose of careful attack is to increase a character’s chance to hit. However, twin strike was always a better choice because it represented equivalent damage and better accuracy. This change makes careful attack a viable choice.

Careful Attack
You study the enemy, looking for a gap in his defenses. Only when you find it do you strike.

At-Will ✦ Martial, Weapon
Standard Action Melee or Ranged weapon
Requirement: You must be wielding two melee weapons or a ranged weapon.
Target: One creature
Attack: Strength + 2 vs. AC (melee) or Dexterity + 2 vs. AC (ranged).
Hit: 1[W] + Strength modifier damage (melee) or 1[W] + Dexterity modifier damage (ranged).
Increase damage to 2[W] + Strength modifier damage (melee) or 2[W] + Dexterity modifier (ranged) at 21st level.
**Unbalancing Parry**  
Page 106: In the Effect line, replace “Slide” with “You slide the enemy 3 squares.” This change prevents a player from using the power to slide an enemy throughout the battlefield.

**Shadow Wasp Strike**  
Page 107: Replace both instances of “AC” with “Reflex.”

**Blade Cascade**  
Page 109: On the Attack line, replace the second sentence with “Alternate main and off-hand weapon attacks until you miss or until you make five attacks.”

**Stunning Steel**  
Page 110: On the Hit line, replace “stunned” with “immobilized.” In the previous text, the immobilized condition in the third sentence of the Hit line was redundant, because stunning effectively immobilizes a target. Furthermore, the power’s previous effect was overpowered.
Follow-Up Blow
Page 113: On the Effect line at the end of the sentence, add “other than a melee basic attack.” The former text allows the power to trigger itself, permitting a character to generate too many attacks.

Sneak Attack
Page 117: Replace the paragraph with the following text.

Once per round, when you have combat advantage against an enemy and hit that enemy with an attack that uses a crossbow, a light blade, or a sling, the attack deals extra damage. If you have dealt Sneak Attack damage since the start of your turn, you cannot deal it again until the start of your next turn. You decide whether to apply the extra damage after making the damage roll. As you advance in level, your extra damage increases.

Deadly Positioning
Page 121: On the Attack line, replace “to any other” with “3 squares to a.” This change prevents a player from using the power to slide an enemy throughout the battlefield.

Close Quarters
Page 122: In the last sentence of the Effect line, add “1 square” between “you” and “into.” This change prevents a monster from using the power to slide an enemy throughout the battlefield.

Follow-Up Blow
Ranger Attack 29
You follow every strike with a backhanded swipe that breaks through your enemy’s defenses.

Daily ✦ Martial, Stance, Weapon
Minor Action Personal
Requirement: You must be wielding two melee weapons.
Effect: You can use your off-hand weapon to make a melee basic attack with a –2 penalty against each enemy you hit using a melee attack power other than a melee basic attack.

Close Quarters
Rogue Utility 10
You take cover beneath a much larger creature, making it harder for the creature to hit you.

Daily ✦ Martial
Move Action Personal
Prerequisite: You must be trained in Acrobatics.
Effect: Move into the space of an adjacent creature larger than you and at least Large in size. (It gets its usual opportunity attack against you as you leave an adjacent square.) You gain combat advantage against the creature, and it takes a –4 penalty to attack rolls against you. When the creature moves, you move along with it, staying in the same portion of the creature’s space. The creature can make a Strength or Dexterity vs. Reflex attack (as a standard action with no penalty) to slide you 1 square into an adjacent square and end this effect.
Special: Allies of the target creature can attack you without penalty.

Shadow Stride
Page 122: Replace the Effect line with the following: “Effect: You must be hidden to use this power. You can move your speed and must end your movement in a space where you can remain hidden. Then make a Stealth check with no penalty for moving. If the check succeeds, you remain hidden during the movement, even if you have no cover or concealment during it.”

Shadow Stride
Rogue Utility 10
You silently step from shadow to shadow, slipping past your foes unseen and unheard.

At-Will ✦ Martial
Move Action Personal
Prerequisite: You must be trained in Stealth.
Effect: You must be hidden to use this power. You can move your speed and must end your movement in a space where you can remain hidden. Then make a Stealth check with no penalty for moving. If the check succeeds, you remain hidden during the movement, even if you have no cover or concealment during it.

Ghost on the Wind
Page 125: On the Hit line, replace “move into any square” with “shift into any square.”

Ghost on the Wind
Rogue Attack 25
You vanish, then strike out of nowhere!

Daily ✦ Martial, Weapon
Standard Action Melee
Requirement: You must be wielding a light blade.
Target: One creature
Attack: Dexterity vs. Will
Hit: 6[W] + Dexterity modifier damage, and you become invisible. You shift into any square adjacent to the target and reappear at the start of your next turn. You have combat advantage against the target until the end of your next turn.
Miss: Half damage, you can shift 1 square to another square adjacent to the target, and you have combat advantage against the target until the end of your next turn.
**Instant Escape**

Page 127: Replace “Immediate Interrupt” with “Immediate Reaction.”

**Instant Escape**

*Cat Burglar Utility 12*

With supreme effort, you escape.

**Encounter ▶ Martial**

**Immediate Reaction**  Personal

**Trigger:** You become immobilized, restrained, or slowed.

**Effect:** You end any of the above conditions that currently afflict you. Then you can shift 2 squares.

**Warlock’s Curse**

Page 131: Replace the first paragraph with the following text.

Once per turn as a minor action, you can place a Warlock’s Curse on the enemy nearest to you that you can see. A cursed enemy is more vulnerable to your attacks. If you hit a cursed enemy with an attack, you deal extra damage. You decide whether to apply the extra damage after making the damage roll. You can deal this extra damage once per round, so if you have dealt Warlock’s Curse damage since the start of your turn, you cannot deal it again until the start of your next turn.

**Frigid Darkness**

Page 133: On the Hit line, replace “all of your enemies” with “you and your allies.” On the Star Pact line, add “until the end of your next turn” to the end of the sentence.

**Frigid Darkness**

*Warlock (Star) Attack 3*

You create a freezing black shadow around your foe, a small taste of the icy darkness in the depths of the night sky. He is unable to see well enough to defend himself while the shadows cling to him.

**Encounter ▶ Arcane, Cold, Fear, Implement**

**Standard Action**  Ranged 10

**Target:** One creature

**Attack:** Constitution vs. Fortitude

**Hit:** 2d8 + Constitution modifier cold damage, and the target grants combat advantage to you and your allies until the end of your next turn.

**Star Pact:** The target takes a penalty to AC equal to your Intelligence modifier until the end of your next turn.

**Thirsting Maw**

Page 137: Add the “Healing” keyword.

**Thirsting Maw**

*Warlock (Infernal) Attack 15*

*With a flick of your wrist, you create a phantasmal cellike creature from your palm and hurl it at your foe. It latches itself to him and begins to drink his blood . . . and you grow stronger.*

**Daily ▶ Arcane, Healing, Implement**

**Standard Action**  Ranged 5

**Target:** One creature

**Attack:** Constitution vs. Fortitude

**Hit:** 4d8 + Constitution modifier damage, and you regain hit points equal to half the amount of damage dealt.

**Sustain Minor:** The target takes 2d8 damage (save ends). Each time the target takes this damage, you regain hit points equal to half the damage.

**Banish to the Void**

Page 139: On the Hit line, replace “The target attacks nearest target on its next turn” with “The target makes a melee basic attack against the nearest creature on its next turn.”

**Banish to the Void**

*Warlock (Star) Attack 27*

You hurl your foe screaming into the skies, and he disappears to some remote and terrible corner of the cosmos. When he returns, madness overwhelms him.

**Encounter ▶ Arcane, Fear, Implement, Teleportation**

**Standard Action**  Ranged 10

**Target:** One creature

**Attack:** Constitution vs. Will

**Hit:** 2d10 + Constitution modifier damage. The target disappears into a starry realm. At the start of its next turn, the target reappears in its original space. If that space is occupied, the target returns to the nearest unoccupied space (its choice). The target makes a melee basic attack against the nearest creature on its next turn. Until the end of your next turn, all creatures treat the target as an enemy with respect to provoking opportunity attacks, and the target must take every opportunity attack possible.

**Star Pact:** The target gains a power bonus to attack rolls equal to your Intelligence modifier. This bonus applies only to attack rolls it makes due to this power.

**Hurl Through Hell**

Page 140: On the Hit line, add “(save ends)” after “stunned.”

**Hurl Through Hell**

*Warlock (Infernal) Attack 29*

You open a short-lived planar rift to the depths of the Nine Hells. It appears as a fiery crevice beneath your enemy’s feet, into which he falls screaming, and disappears. A few moments later, a flaming arch appears in the air over the spot where he was standing and disgorges a broken, mewling piece of charred meat.

**Daily ▶ Arcane, Fear, Fire, Implement, Teleportation**

**Standard Action**  Ranged 10

**Target:** One creature

**Attack:** Constitution vs. Will

**Hit:** 7d10 + Constitution modifier fire damage, and the target disappears into the Nine Hells until the end of your next turn. The target returns to the same square it left, or the nearest unoccupied square, and is prone and stunned (save ends).

**Sustain Minor:** If you spend a minor action to sustain the power, the target’s return is delayed until the end of your next turn. You can sustain the power no more than three times.

**Miss:** Half damage, and the target does not disappear.
Whispers of the Fey
Page 141: Replace “Utility 20” with “Attack 20.”

Whispers of the Fey
Feytouched (Fey) Attack 20
The disquieting whispers of fey spirits surround you, filling the minds of nearby enemies with deranged thoughts and provoking them to turn on their allies.

Daily + Arcane, Charm, Implement, Psychic
Standard Action Close burst 5
Target: Each enemy in burst
Attack: Charisma vs. Will
Hit: The target must make a basic attack against its nearest ally (you choose the target if there are multiple possible targets). If it can’t make the attack, the target takes 2d8 + Charisma modifier psychic damage.
Effect: After it makes its attack or takes psychic damage, the target is dazed (save ends).

Collect Life Spark
Page 142: On the Fey line, add “until the end of your next turn” to the end of the sentence.

Fey: A successful attack you make on your current turn also causes your target to become dazed until the end of your next turn.

Make Them Bleed
Page 149: Add “Melee weapon” as the power’s range.

Make Them Bleed
Warlord Attack 15
You bleed your foe with a wicked strike, exposing a fatal flaw in its armor.

Daily + Martial, Weapon
Standard Action Melee
Target: One creature
Attack: Strength vs. AC
Hit: 3[W] + Strength modifier damage, and ongoing 5 damage (save ends).
Effect: Until the end of the encounter, when you or an ally hits the target, that attack also deals ongoing 5 damage (save ends).

Relentless Assault
Page 152: In the Effect line, replace “a free action” with “an opportunity action.” The former text allows a group of characters to generate too many attacks each round.

Relentless Assault
Warlord Attack 25
You bring your weapon down hard, and your enemy is engulfed by a cloud of crimson mist. A fierce battle cry throws your allies into a blood-stoked frenzy.

Daily + Martial, Weapon
Standard Action Melee weapon
Target: One creature
Attack: Strength vs. AC
Hit: 5[W] + Strength modifier damage.
Effect: Until the end of the encounter, when you or an ally scores a critical hit, you and each ally can make a basic attack as an opportunity action.

Chimera Battlestrike
Page 152: Replace “Minor Action” with “Standard Action.”

Chimera Battlestrike
Warlord Attack 27
With a roaring battle cry, you strike nearby foes and thrust them back, changing the complexion of the battlefield.

Encounter + Martial, Weapon
Standard Action Close burst 1
Target: Each enemy in burst you can see
Attack: Strength vs. Reflex
Hit: 3[W] + Strength modifier damage, and you slide the target 2 squares.
Tactical Presence: You slide the target a number of squares equal to 1 + your Intelligence modifier.

Trained Skills
Page 156: Replace “Nature (Int)” with “Nature (Wis).”

Trained Skills: Arcana. From the class skills list below, choose three more trained skills at 1st level.
Class Skills: Arcana (Int), Diplomacy (Cha), Dun-geoneering (Wis), History (Int), Insight (Wis), Nature (Wis), Religion (Int)

Flaming Sphere
Page 160: Move the Effect line above the Target line and replace the text with the following: “Effect: You conjure a Medium flaming sphere that occupies a square within range, and the sphere attacks. Any creature that starts its turn adjacent to the sphere takes 1d4 + Intelligence modifier fire damage. As a move action, you can move the sphere 6 squares.”

Flaming Sphere
Wizard Attack 1
You conjure a rolling ball of fire and control where it goes.

Daily + Arcane, Conjuration, Fire, Implement
Standard Action Ranged 10
Effect: You conjure a Medium flaming sphere that occupies a square within range, and the sphere attacks. Any creature that starts its turn adjacent to the sphere takes 1d4 + Intelligence modifier fire damage. As a move action, you can move the sphere 6 squares.
Target: One creature adjacent to the flaming sphere
Attack: Intelligence vs. Reflex
Hit: 2d6 + Intelligence modifier fire damage.
Sustain Minor: You can sustain this power until the end of the encounter. As a standard action, you can make another attack with the sphere.
**Jump**

*Page 161: *Replace the Effect line with the following: “Effect: The target makes an Athletics check as a free action to jump with a +10 power bonus. The target can move as many squares as the check allows and is considered to have a running start.”

**Jump**

*Wizard Utility 2*

You or another creature you choose can suddenly leap great distances.

**Encounter + Arcane**

**Move Action**

**Ranged 10**

**Target:** You or one creature

**Effect:** The target makes an Athletics check as a free action to jump with a +10 power bonus. The target can move as many squares as the check allows and is considered to have a running start.

**Dispel Magic**

*Page 162: *Add the “Implement” keyword.

**Dispel Magic**

*Wizard Utility 6*

You unleash a ray of crackling arcane energy that destroys a magical effect created by an opponent.

**Daily + Arcane, Implement**

**Standard Action**

**Ranged 10**

**Target:** One conjuration or zone

**Attack:** Intelligence vs. the Will defense of the creator of the conjuration or the zone

**Hit:** The conjuration or the zone is destroyed. All its effects end, including those that normally last until a target saves.

**Wall of Fog**

*Page 162: *On the Effect line, replace the fourth sentence with “The fog’s area is heavily obscured and blocks line of sight.”

**Wall of Fog**

*Wizard Utility 6*

You create a billowing wall of gray fog that obscures vision.

**Daily + Arcane, Conjunction**

**Standard Action**

**Area wall 8 within 10**

**Effect:** You conjure a wall that consists of contiguous squares filled with arcane fog. The wall lasts until the end of your next turn. It can be up to 8 squares long and up to 4 squares high. The fog’s area is heavily obscured and blocks line of sight.

**Sustain Minor:** The wall persists.

**Wall of Ice**

*Page 165: *Replace “As a standard action, a creature can attack one square of the wall” with “A creature can attack the wall.”

**Wall of Ice**

*Wizard Attack 15*

A wall of glittering, jagged ice appears at your command.

**Daily + Arcane, Cold, Conjunction, Implement**

**Standard Action**

**Area wall 12 within 10 squares**

**Effect:** You conjure a solid wall of contiguous squares filled with arcane ice. The wall can be up to 12 squares long and up to 6 squares high.

Any creature that starts its turn adjacent to the wall takes 2d6 + Intelligence modifier cold damage. The wall blocks line of sight and prevents movement. No creature can enter a square containing the wall.

**Special:** A creature can attack the wall. Each square has 50 hit points. Any creature that makes a melee attack against the wall takes 2d6 cold damage. The wall has vulnerability 25 to fire. If the wall is not destroyed, it melts away after 1 hour.

**Cloudkill**

*Page 166: *Add “Attack: Intelligence vs. Fortitude” above the Hit line.

**Cloudkill**

*Wizard Attack 19*

Yellow-green vapors emerge from the ground with a hiss, forming a thick, toxic cloud.

**Daily + Arcane, Implement, Poison, Zone**

**Standard Action**

**Area burst 5 within 20 squares**

**Target:** Each creature in burst

**Attack:** Intelligence vs. Fortitude

**Hit:** 1d10 + Intelligence modifier poison damage.

**Effect:** The burst creates a zone of poisonous vapors that lasts until the end of your next turn. A creature that enters the zone or starts its turn there takes 1d10 + Intelligence modifier poison damage. As a move action, you can move the zone 3 squares.

**Sustain Minor:** The zone persists.

**Forceful Retort**

*Page 169: *Add Force keyword. The power deals force damage and should have the force keyword.

**Forceful Retort**

*Battle Mage Attack 11*

The power and certainty of your words knock your enemies off their feet.

**Encounter + Arcane, Force, Implement**

**Standard Action**

**Close burst 1**

**Target:** Each enemy in burst

**Attack:** Intelligence vs. Fortitude

**Hit:** 3d8 + Intelligence modifier force damage, and you push the target 1 square and it is knocked prone.
**Bolstering Blood**

Page 169: Replace the last sentence of the path feature with the following: “You gain a bonus to the power’s damage rolls equal to the damage you dealt to yourself.” This change clarifies that the extra damage applies only to damage rolls and not to static damage, such as ongoing damage.

**Bolstering Blood (11th level):** You learn to turn your own pain into additional pain for your enemies. When you use a wizard encounter power, a wizard daily power, or a blood mage power that deals damage, you can, once per turn as a free action just prior to using the power, deal either a minor wound or a severe wound to yourself.

- A minor wound deals 1d10 damage to you.
- A severe wound deals 2d10 damage to you.

You gain a bonus to the power’s damage rolls equal to the damage you dealt to yourself.

**Archmage**

Page 173-174: In the second sentence of the Archspell feature, replace “one daily spell” with “one daily attack spell.” The former text allowed you to use this feature to regain a utility power, when that is not the intent.

**Archspell (30th level):** Your comprehension of the ultimate arcane formula and of the spells that constitute it reaches a new threshold. Choose one daily attack spell that you know. You can now cast that spell as an encounter spell (rather than as a daily spell).

**Level of Knowledge**

**Bluff**

Page 183: In the shaded box, replace the text under “Create a Diversion” with the following text.

- **Create a Diversion to Hide:** Once per combat encounter, you can create a diversion to hide. As a standard action, make a Bluff check opposed by the passive Insight check of any enemy that can see you. If you succeed, make a Stealth check opposed by the passive Perception check of any enemy present. If the Stealth check succeeds against an enemy, you are hidden from that enemy until the end of your turn or until you attack.

**Thievery**

Page 189: Under Pick Pocket, replace “DC 20 + your target’s level” with “DC 20 + one-half your target’s level.”

- **DC:** DC 20 + one-half your target’s level. If in combat, you take a -10 penalty to your check.

**Alertness**

Page 193: Replace the first sentence of the benefit section with “You don’t grant enemies combat advantage from being surprised.”

**Benefit:** You don’t grant enemies combat advantage from being surprised.

**Shield Push**

Page 200: Replace the text in the special section with “You must be using a shield to benefit from this feat.”

**Special:** You must be using a shield to benefit from this feat.
Stealth
Page 188: Replace the shaded text with the following text.

**Stealth:** At the end of a move action.

✦ **Opposed Check:** Stealth vs. passive Perception. If multiple enemies are present, your Stealth check is opposed by each enemy’s passive Perception check. If you move more than 2 squares during the move action, you take a –5 penalty to the Stealth check. If you run, the penalty is –10.

✦ **Becoming Hidden:** You can make a Stealth check against an enemy only if you have superior cover or total concealment against the enemy or if you’re outside the enemy’s line of sight. Outside combat, the DM can allow you to make a Stealth check against a distracted enemy, even if you don’t have superior cover or total concealment and aren’t outside the enemy’s line of sight. The distracted enemy might be focused on something in a different direction, allowing you to sneak up.

✦ **Success:** You are hidden, which means you are silent and invisible to the enemy (see “Concealment” and “Targeting What You Can’t See,” page 281).

✦ **Failure:** You can try again at the end of another move action.

✦ **Remaining Hidden:** You remain hidden as long as you meet these requirements.

  - **Keep Out of Sight:** If you no longer have any cover or concealment against an enemy, you don’t remain hidden from that enemy. You don’t need superior cover, total concealment, or to stay outside line of sight, but you do need some degree of cover or concealment to remain hidden. You can’t use another creature as cover to remain hidden.

  - **Keep Quiet:** If you speak louder than a whisper or otherwise draw attention to yourself, you don’t remain hidden from any enemy that can hear you.

  - **Keep Still:** If you move more than 2 squares during an action, you must make a new Stealth check with a –5 penalty. If you run, the penalty is –10. If any enemy’s passive Perception check beats your check result, you don’t remain hidden from that enemy.

  - **Don’t Attack:** If you attack, you don’t remain hidden.

✦ **Not Remaining Hidden:** If you take an action that causes you not to remain hidden, you retain the benefits of being hidden until you resolve the action. You can’t become hidden again as part of that same action.

✦ **Enemy Activity:** An enemy can try to find you on its turn. If an enemy makes an active Perception check and beats your Stealth check result (don’t make a new check), you don’t remain hidden from that enemy. Also, if an enemy tries to enter your space, you don’t remain hidden from that enemy.

Triumphant Attack
Page 207: Remove “(save ends).” The feat has two durations listed, and this one was incorrect.

**Benefit:** If you score a critical hit with a melee attack, the target of your attack takes a –2 penalty to attack rolls and defenses for the rest of the encounter.

Arcane Initiate
Page 208: Replace the third paragraph of the Benefit section with “In addition, you can use wizard implements.” The former text did not take into account new implements, such as the tome, which was introduced in Arcane Power.

**Benefit:** You gain training in the Arcana skill. Choose a 1st-level wizard at-will power. You can use that power once per encounter.

In addition, you can use wizard implements.

Warrior of the Wild
Page 208: Add the following sentence to the end of the second paragraph of the benefit section: “The target you designate as your quarry remains your quarry until the end of your next turn.”

**Benefit:** You gain training in one skill from the ranger’s class skill list. Once per encounter, you can use the ranger’s Hunter’s Quarry class feature. The target you designate as your quarry remains your quarry until the end of your next turn.

Delver's Armor
Page 229: Replace “Free Action” with “No Action.”

Delver’s Armor
Level 3+
A popular armor among adventurers, it is relatively easy to make.

Lvl 3 +1 680 gp  Lvl 18 +4 85,000 gp
Lvl 8 +2 3,400 gp  Lvl 23 +5 425,000 gp
Lvl 13 +3 17,000 gp  Lvl 28 +6 2,125,000 gp
Armor: Any
Enhancement: AC
Power (Daily): No Action. Gain a +2 power bonus to a saving throw you just rolled; use the new result.

Rod of Reaving
Page 240: On the Property line, add “nonminion” before “target.” This change prevents a character from combining this item with a rod of corruption to kill all minions in an encounter.

Rod of Reaving
Level 5+
This rod enhances the damage dealt to those suffering your Warlock’s Curse.

Lvl 5 +1 1,000 gp  Lvl 20 +4 125,000 gp
Lvl 10 +2 5,000 gp  Lvl 25 +5 625,000 gp
Lvl 15 +3 25,000 gp  Lvl 30 +6 3,125,000 gp
Implement (Rod)
Enhancement: Attack rolls and damage rolls
Critical: +1d8 damage per plus
Property: When you place your Warlock’s Curse on a nonminion target, the creature takes damage equal to the rod’s enhancement bonus.

Resistance and Vulnerability
Page 276: Add the following two paragraphs to the end of the resistance section. These paragraphs help explain how resistance interacts with other types or the same type of resistance.

Against Combined Damage Types: Your resistance is ineffective against combined damage types unless you have resistance to each of the damage types, and then only the weakest of the resistances applies. For example, if you have resist 10 lightning and resist 5 thunder and an attack deals 15 lightning and thunder damage to you, you take 10 damage, because the resistance to the combined damage types is limited by the lesser of the two resistances.

Not Cumulative: Resistances against the same damage type are not cumulative. Only the highest resistance applies. For example, if you have resist 5 cold and then gain resist 10 cold, you have resist 10 cold, not resist 15 cold. Similarly, if you have resist 5 cold and then gain resist 2 to all damage, you still have resist 5 cold, not resist 7 cold.

Page 276: Add the following two paragraphs to the end of the vulnerable section. These paragraphs help explain how vulnerability interacts with other types or the same type of vulnerability.

Against Combined Damage Types: Vulnerability to a specific damage type applies even when that damage type is combined with another. For example, if you have vulnerable 5 fire, you take 5 extra damage when you take ongoing fire and radiant damage.

Not Cumulative: Vulnerabilities to the same damage type are not cumulative. Only the highest vulnerability applies. For example, if you have vulnerable 5 psychic and then gain vulnerable 10 psychic, you have vulnerable 10 psychic, not vulnerable 15 psychic.

Dominated
Page 277: Replace the effect of the dominated condition with the following text. This change removes the condition’s reliance on the dazed condition, which allowed a dominated creature to take free actions.

Dominated
✦ You can’t take actions. Instead, the dominating creature chooses a single action for you to take on your turn: a standard, a move, or a minor action. The only powers it can make you use are at-will powers.
✦ You grant combat advantage and can’t flank.

Prone
Page 277: Add “You can’t move from your space, although you can teleport, crawl, or be forced to move by a pull, a push, or a slide.”

Prone
✦ You grant combat advantage to enemies making melee attacks against you.
✦ You can’t move from your space, although you can teleport, crawl, or be forced to move by a pull, a push, or a slide.
✦ You get a +2 bonus to all defenses against ranged attacks from nonadjacent enemies.
✦ You’re lying on the ground. (If you’re flying, you safely descend a distance equal to your fly speed. If you don’t reach the ground, you fall.)
✦ You take a –2 penalty to attack rolls.
✦ You can drop prone as a minor action.

Surprised
Page 277: Remove “other than free actions.”

Surprised
✦ You grant combat advantage.
✦ You can’t take actions.
✦ You can’t flank an enemy.
TARGETING WHAT YOU CAN'T SEE
Page 281: Replace the “Invisible Creature Uses Stealth” and “Make a Perception Check” paragraphs with the following text.

Invisible Creatures and Stealth: If an invisible creature is hidden from you (“Stealth,” page 188), you can neither hear nor see it, and you have to guess what space it occupies. If an invisible creature is not hidden from you, you can hear it or sense some other sign of its presence and therefore know what space it occupies, although you still can’t see it.

Make a Perception Check: On your turn, you can make a Perception check as a minor action (page 186) to try to determine the location of an invisible creature that is hidden from you.

TELEPORTATION
Page 286: Replace the text for the Destination entry and the Immobilized entry. This change addresses what happens when a creature is forced to teleport, and it clarifies that the Immobilized entry includes restrained as well.

✦ Destination: Your destination must be a space you can occupy without squeezing. If arriving in the destination space would cause the target to fall or if that space is hindering terrain, the target cannot make a saving throw. On a save, the teleportation is negated.

✦ Immobilized or Restrained: Being immobilized or restrained doesn't prevent a target from teleporting. If a target teleports away from a physical restraint, a monster's grasp, or some other immobilizing effect that is located in a specific space, the target is no longer immobilized or restrained. Otherwise, the target teleports but is still immobilized or restrained when it reaches the destination space.

SHIFT
Page 292: In the “No Opportunity Attacks” section, replace the current text with “Your movement doesn’t provoke opportunity attacks.” The former text did not take into consideration abilities that allow a creature to make opportunity attacks beyond adjacent squares, such as with threatening reach.

✦ No Opportunity Attacks: Your movement doesn’t provoke opportunity attacks.

TEMPORARY HIT POINTS
Page 294: In the “Don’t Add Together” section, replace “from different sources” with “and already have some.” This change removes confusion regarding whether or not temporary hit points ever stack.

✦ Don’t Add Together: If you get temporary hit points and already have some, use the higher value as your temporary hit point total instead of adding the values together.

DEATH SAVING THROW
Page 295: Remove “expressed as a negative number” in the last sentence.

Death Saving Throw: When you are dying, you need to make a saving throw at the end of your turn each round. The result of your saving throw determines how close you are to death.

Lower than 10: You slip one step closer to death. If you get this result three times before you take a rest, you die.

10–19: No change.
20 or higher: Spend a healing surge. When you do so, you are considered to have 0 hit points, and then your healing surge restores hit points as normal. You are no longer dying, and you are conscious but still prone. If you roll 20 or higher but have no healing surges, your condition doesn’t change.

**Focus:** A mirror or a crystal ball worth at least 5,000 gp. The focus conveys what you see and hear.
DUNGEON MASTER'S GUIDE

OLD UPDATES

BLOCKED VISION

Page 37: Replace the second and third paragraphs with the following text.

Blocked vision provides an opportunity for characters or creatures to make Stealth checks to try to become hidden. Simply being out of sight doesn't make a character or a creature hidden. Beyond the lowest character levels, surprise is rare without some attempt at stealth. Creatures that want to achieve surprise in heavy fog or similar conditions must make an effort to be quiet and stay out of sight, making Stealth checks.

ACTIONS THE RULES DON'T COVER

Page 42: Replace the “Other Checks” paragraph with the following text.

Other Checks: If the action is related to a skill (Acrobatics and Athletics cover a lot of the stunts characters try in combat), use that check. If it is not an obvious skill or attack roll, use an ability check. Consult the Difficulty Class and Damage by Level table below, and set the DC according to whether you think the task should be easy, hard, or somewhere in between. A quick rule of thumb is to start with a DC of 5 (easy), 10 (moderate), or 15 (hard) and add one-half the character's level.

Page 42: Replace the second paragraph of the “Example” section with the following text.

This sort of action is exactly the kind of thinking you want to encourage, so you pick a moderate DC: The table says DC 14. If she makes that check, she gets a hold on the chandelier and swings to the ogre.

Obscured Terrain

Page 61–62: Replace the text in the shaded box with the following text.

**OBSCURED TERRAIN**

✦ Lightly Obscured: Squares of dim light, foliage, fog, smoke, heavy falling snow, or rain are lightly obscured.
  
  Concealment: A target in a lightly obscured space has concealment.

✦ Heavily Obscured: Squares of heavy foliage, heavy fog, or heavy smoke are heavily obscured.
  
  Concealment: A target in a heavily obscured space but adjacent to you has concealment.

Total Concealment: A target in a heavily obscured space and not adjacent to you has total concealment.

✦ Totally Obscured: Squares of darkness are totally obscured.
  
  Total Concealment: A target in a totally obscured space has total concealment.

Step 2: Level and Complexity

Page 72–73: In the table, replace all values in the Failures column with “3”

In the second sentence of the third paragraph, remove “, and how many failures end the challenge.”

Replace the sixth paragraph of the section.

Remove the seventh paragraph.

The following text replaces the section.

What level is the challenge? What is the challenge’s complexity?

Choose a grade of complexity, from 1 to 5 (1 being simple, 5 being complex).

</tbody>
</table>

Level and complexity determine how hard the challenge is for your characters to overcome. The skill challenge’s level determines the DC of the skill checks involved, while the grade of complexity determines how many successes the characters need to overcome the challenge. The more complex a challenge, the more skill checks are required, and the greater number of successes needed to overcome it.

Set the complexity based on how significant you want the challenge to be. If you expect it to carry the same weight as a combat encounter, a complexity of 5 makes sense. A challenge of that complexity takes somewhere between 12 and 18 total checks to complete, and the characters should earn as much experience for succeeding as they would for a combat encounter of the same level (it’s the same as taking on five monsters of the challenge’s level). For quicker, less significant challenges, or for challenges that work as part of a combat encounter, set the complexity lower. (Figure that each complexity is the equivalent of that number of monsters of the challenge’s level.)

For an easier or a harder challenge, use DCs from the row that corresponds to a lower or a higher level, and assign the challenge’s level as the midpoint of that level range. For example, if designing an easier challenge for an 8th-level party, you could use the DCs from the “Level 4–6” row. That would adjust the challenge’s level to 5.

If you use easy DCs, reduce the level of the challenge by one. If you use hard DCs, increase the level of the challenge by two. You can also adjust the level of the challenge by reducing the number of failures needed to end the challenge. Cut the number of failures needed in half, and increase the level of the challenge by two. (You can also mix DCs in the same challenge, as described on page 74.)

Step 3: Skills

Page 73: In the first sentence of the fourth paragraph, replace “When a player’s turn comes up in a skill challenge” with “When a player participates in a skill challenge.”

When a player participates in a skill challenge, let that player’s character use any skill the player wants. As long as the player or you can come up with a way to let this secondary skill play a part in the challenge, go for it. If a player wants to use a skill you didn’t identify as a primary skill in the challenge, however, then the DC for using that secondary skill is usually moderate or hard. The use of the skill might win the day in unexpected ways, but the risk is greater as well. In addition, a secondary skill can never be used by a single character more than once in a challenge.
Run a Skill Challenge

Page 74: Remove the second and the third paragraphs so that the section reads as follows.

Begin by describing the situation and defining the challenge. Running the challenge itself is not all that different from running a combat encounter (see Chapter 3). You describe the environment, listen to the players’ responses, let them make their skill checks, and narrate the results. The skill challenge description outlines the skills that are useful for the challenge and the results of using them.

Sometimes, a player tells you, “I want to make a Diplomacy check to convince the duke that helping us is in his best interest.” That’s great—the player has told you what she’s doing and what skill she’s using to do it. Other times, a player will say, “I want to make a Diplomacy check.” In such a case, prompt the player to give more information about how the character is using that skill. Sometimes, characters do the opposite: “I want to scare the duke into helping us.” It’s up to you, then, to decide which skill the character is using and call for the appropriate check.

You can also make use of the “DM’s best friend” rule to reward particularly creative uses of skills (or penalize the opposite) by giving a character a +2 bonus or –2 penalty to the check. Then, depending on the success or failure of the check, describe the consequences, and go on to the next action.

Group Skill Checks

Page 75: Add the following paragraph after the existing text.

On checks that aren’t described as group checks, consider limiting the number of characters who can assist another character’s skill check to one or two. The goal of a skill challenge isn’t for the entire party to line up behind one expert but for the entire group to contribute in different and meaningful ways.

Reward Clever Ideas

Page 75: In the fourth sentence of the first paragraph, replace “let them make a roll using the skill but at a hard DC” with “let them make a roll using the skill at an appropriate DC (usually moderate or hard).”

Thinking players are engaged players. In skill challenges, players will come up with uses for skills that you didn’t expect to play a role. Try not to say no. Instead, let them make a roll using the skill at an appropriate DC (usually moderate or hard), or make the skill good for only one success. This encourages players to think about the challenge in more depth and engages more players by making more skills useful.

The Negotiation

The “Get a Clue” Check

Page 81: In the second sentence of the sidebar, replace “leaning toward the hard DCs” with “using moderate DCs.”

One way to appease the frustrated player who thinks his high-Intelligence character should be able to solve puzzles he can’t is to allow the player to roll Intelligence checks or various skill checks to help solve the puzzle. With a successful check (use the Difficulty Class and Damage by Level table, page 42, using moderate DCs), give the player a hint—a small part of the puzzle, one right move, or a clue toward a new way of thinking about the puzzle.

Success detaches the gem and disables the trap. Failure causes the gem to explode (close burst 8, 4d10 + 5 radiant damage and stunned (save ends) to all creatures in burst).

Difficulty

Page 104: The following changes are necessary to sync up the “Difficulty” section on page 104 with the “Encounter Components” section on page 56.

OLD UPDATES

ACTION
Page 7: In the first sentence of the Sustain definition, replace “start of its next turn” with “end of its next turn.” Otherwise, the monster cannot ever sustain its power because the duration ends before it can spend the necessary action.

Sustain: The monster can sustain the power’s effect until the end of its next turn, usually as a standard or minor action. If the power requires an attack roll, the attack must succeed before the monster can sustain the power.

EFFECT

The feymire crocodile tries to swallow a bloodied Medium or smaller creature it is grabbing: +15 vs. Fortitude; the target is swallowed. The swallowed target is inside the feymire crocodile and is dazed and restrained until it is no longer swallowed. The swallowed target has line of sight and line of effect only to the feymire crocodile, and no creature has line of sight or line of effect to the swallowed target. The only attacks the swallowed target can make are basic attacks. At the start of each of the feymire crocodile’s turns, the swallowed target takes 10 damage. When the feymire crocodile dies, the target is no longer swallowed and can escape as a move action, appearing in the feymire crocodile’s former space.

CYCLOPS BATTLEWEAVER
Page 48: In the evil eye power, replace the attack’s text with the following text: “Ranged 20; the target takes a –2 penalty to speed until the end of the encounter or until the cyclops battleweaver uses evil eye on a different target.” This change adds a duration to the effect.

Ogre Savage
Page 199: Replace the greatclub damage: “1d10 + 5 damage” with “2d10 + 5 damage.”

Greatclub (standard; at-will) ✦ Weapon
Reach 2; +11 vs. AC; 2d10 + 5 damage.

Oni Night Haunter
Page 200: Replace “(no save)” in hypnotic breath with “(save ends).”

Hypnotic Breath (standard; recharges when first bloodied) ✦ Charm, Sleep
Close blast 5; +11 vs. Will; the target is dazed (save ends). First Failed Saving Throw: The target falls unconscious (save ends).

Gelatinous Cube
Page 202: Replace the slam damage: “1d6 + 2 damage” with “2d6 + 2 damage.”

Slam (standard; at-will)
+10 vs. Fortitude; 2d6 + 2 damage, and the target is immobilized (save ends).

Add the melee attack symbol to engulf.

Engulf (standard; at-will) ✦ Acid
The gelatinous cube attacks one or two Medium or smaller targets; +8 vs. Reflex (automatically hits an immobilized creature). On a hit, the target is grabbed and pulled into the cube’s space; the target is dazed and takes ongoing 10 acid damage until it escapes the grab. A creature that escapes the grab shifts to a square of its choosing adjacent to the cube. The cube can move normally while creatures are engulfed within it.

Aspect of Orcus
Page 208: Replace skull mace damage: “1d10 + 10 damage” with “2d10 + 5 damage.”

Skull Mace (standard; at-will) ✦ Necrotic, Weapon
Reach 2; +27 vs. AC; 2d10 + 5 damage, and the target is weakened (save ends).

Purple Worm
Page 214: Replace the swallow attack text with the following text.

Swallow (standard; at-will)
The purple worm tries to swallow a bloodied Medium or smaller creature it is grabbing: +21 vs. Fortitude; the target is swallowed. The swallowed target is inside the purple worm and is dazed and restrained until it no longer swallowed. The swallowed target takes line of sight and line of effect only to the purple worm, and no creature has line of sight or line of effect to the swallowed target. The swallow attack the swallowed target can make are basic attacks. At the start of each of the purple worm’s turns, the swallowed target takes 10 damage plus 10 acid damage. When the purple worm dies, the target is no longer swallowed and can escape as a move action, appearing in the purple worm’s former space.

Purple Worm
Page 214: Replace the swallow attack text with the following text.

Swallow (standard; at-will)
The elder purple worm tries to swallow a bloodied Large or smaller creature it is grabbing: +29 vs. Fortitude; the target is swallowed. The swallowed target is inside the elder purple worm and is dazed and restrained until it is no longer swallowed. The swallowed target has line of sight and line of effect only to the elder purple worm, and no creature has line of sight or line of effect to the swallowed target. The only attacks the swallowed target can make are basic attacks. At the start of each of the elder purple worm’s turns, the swallowed target takes 20 damage plus 20 acid damage. When the elder purple worm dies, the target is no longer swallowed and can escape as a move action, appearing in the elder purple worm’s former space.

Filth Fever

Stormclaw Scorpion
Page 229: In the reactive sting power, replace “immediate reaction” with “immediate interrupt.” The escape action allows a character to shift as part of his or her escape, so one could escape the reach of this attack before the scorpion could make it.

Reactive Sting (immediate interrupt, when an enemy grabbed by the scorpion escapes; at-will)
The stormclaw scorpion makes a sting attack against the enemy.

Hellstinger Scorpion
Page 229: In the reactive sting power, replace “immediate reaction” with “immediate interrupt.” The escape action allows a character to shift as part of his or her escape, so one could escape the reach of this attack before the scorpion could make it.

Reactive Sting (immediate interrupt, when an enemy grabbed by the scorpion escapes; at-will)
The hellstinger scorpion makes a hellish sting attack against the enemy.
**Shadar-kai Chainfighter**

---

**Shadar-kai Gloomblade**  
*Page 230:* In *Veil of Shadows*, replace the first sentence with “The shadar-kai gloomblade turns invisible until the end of his turn and moves his speed.”

**Veil of Shadows** (move; at-will) ✫ Illusion

The shadar-kai gloomblade turns invisible until the end of his turn and moves up to his speed. The gloomblade cannot use this power while bloodied.

**Yuan-ti Malison Sharp-Eye**

**Tactics**  
*Page 269:* Replace the second sentence with “Its chameleon defense helps it remain hidden during an encounter.”

A malison sharp-eye uses ranged attacks in preference to all other attacks. Its *chameleon defense* helps it remain hidden during an encounter.

---

**Yuan-ti Abomination**  
*Page 270:* In the *Grasping Coils* power, add “Reach 2;” before “+18 vs. Reflex.” The creature cannot pull when it can only attack adjacent enemies, so the attack is intended to have reach.

**Grasping Coils** (minor 1/round; at-will)

Reach 2; +18 vs. Reflex; the target is pulled 1 square and grabbed (until escape). The yuan-ti abomination can grab only one creature at a time.

---

**Aura**  
*Page 280:* Remove “and effects imposed by an aura last until the end of the affected creatures’ next turn unless otherwise stated” from the first paragraph.

**Aura:** An aura is a continuous effect that affects all squares within the listed range of the originating creature’s space. An aura does not affect the originating creature unless the text specifies otherwise.

Replace “Let a character use a healing surge” with “Let a character use his or her second wind.”

Combat Advantage table
Delete “Unaware of you (page 188).”

Conditions table
Add the following text to the prone condition: “You can’t move from your space, although you can teleport, crawl, or be forced to move by a pull, a push, or a slide.”

Health a Dying Character table
Replace the second sentence of the Regain Hit Points line with “If the healing effect requires you to spend a healing surge but you have none left, you are restored to 1 hit point.”
**ADVENTURER’S VAULT**

**New Updates**

**Urgosh**

*Page 10*: In the weapon’s description, replace “d8” with “d6.” This revision syncs up the description with previous updates to double weapons.

**Urgosh**: Originally of dwarven make, this weapon has a heavy axe head at one end (dealing d12 damage) and a sharp spear point at the base of the haft (dealing d6 damage).

**Cunning Weapon**

*Page 67*: Replace the first sentence of the item’s property with the following text: “When your attack with this weapon delivers an effect that a save can end, the target of the effect takes a –2 penalty to the first saving throw it makes against the effect.” This saving throw limitation is part of a larger effort to mitigate the use of saving throw penalties to lock down enemies for the duration of an encounter.

**Cunning Weapon**

*Level 8+*

*Finely crafted and ornately etched, this weapon makes its target succumb more easily to adverse conditions.*

**Weapon**: Any melee

**Enhancement**: Attack rolls and damage rolls

**Critical**: +1d8 damage per plus

**Property**: When your attack with this weapon delivers an effect that a save can end, the target of the effect takes a –2 penalty to the first saving throw it makes against the effect.

- Level 18 or 23: –3 penalty to the saving throw.
- Level 28: –4 penalty to the saving throw.

**Grasping Weapon**

*Page 70*: In the item’s power, add “1 square” after “Pull the target.” This revision limits the potency and oddity of putting this enchantment on spears that are heavy thrown weapons.

**Grasping Weapon**

*Level 6+*

*This malleable weapon not only strikes at enemies but also grasps and holds them in place.*

**Weapon**: Polearm, Spear

**Enhancement**: Attack rolls and damage rolls

**Critical**: None

**Property**: You can use this weapon to grab targets, adding the weapon’s enhancement bonus to your grab attack. You can still use this weapon to attack a target you’ve grabbed with it.

**Staff of Ruin**

*Page 107*: Replace the item’s property with the following text: “Whenever you make an attack using this staff, you gain an item bonus to the attack’s damage rolls equal to the staff’s enhancement bonus.” This change clarifies that the staff’s property isn’t intended to work with the Dual Implement Spellcaster feat.

**Staff of Ruin**

*Level 3+*

*This gnarled, jagged staff fits the hand of any wizard seeking to devastate her opponent.*

| Lvl 3 | +1 | 680 gp | Lvl 18 | +4 | 85,000 gp |
| Lvl 8 | +2 | 3,400 gp | Lvl 23 | +5 | 425,000 gp |
| Lvl 13 | +3 | 17,000 gp | Lvl 28 | +6 | 2,125,000 gp |

**Implement (Staff)**

**Enhancement**: Attack rolls and damage rolls

**Critical**: +1d10 damage per plus

**Property**: Whenever you make an attack using this staff, you gain an item bonus to the attack’s damage rolls equal to the staff’s enhancement bonus.

**Boots of Eagerness**

*Page 126*: In the power, replace “Free Action” with “Minor Action.” In addition, replace “an additional” with “a” in the power’s text. The item is intended to grant a move action, not a minor action. Some attack powers require only minor actions to use. This revision limits characters from using this item to acquire extra minor actions that can be used to make numerous attacks during a turn.

**Boots of Eagerness**

*Level 9*

*Your feet feel peppy in these handsome brocade boots.*

**Item Slot**: Feet

4,200 gp

**Power (Encounter)**: Minor Action. Use this power during your turn to take a move action.

**Ring of Fey Travel**

*Page 158*: In the item’s power, delete “If you’ve reached at least one milestone today, this power lasts until the end of your next turn.” This sentence is unrelated to the power’s effect.

**Ring of Fey Travel**

*Level 22*

*Wearing this shimmering feywood ring, you move with otherworldly speed, seemingly out of phase at times.*

**Item Slot**: Ring

325,000 gp

**Property**: Gain a +1 item bonus to speed while wearing light armor or no armor.

**Power (Daily ✦ Teleportation)**: Minor Action. Teleport your speed.
**Salve of Power**  
*Page 176:* In the first sentence of the item’s power, replace “daily power of 5th level or lower” with “encounter attack power.”

**Solitaire (Citrine)**  
*Page 177:* In the item’s power, replace “Encounter” with “Daily.” In addition, delete the last sentence of the power. This revision limits the strength of the solitaire by preventing characters from taking advantage of the power to make numerous attacks during a round.

**Solitaire (Cinnabar)**  
*Page 177:* In the item’s power, replace “Encounter” with “Daily.” This revision limits the strength of the solitaire by preventing characters from making repeated use of the solitaire through the day.

**Solitaire (Violet)**  
*Page 178:* In the item’s power, replace “Encounter” with “Daily.” In addition, delete the last sentence of the power. This revision limits the strength of the solitaire by preventing characters from making repeated use of the solitaire through the day. It also prevents a character from taking advantage of the power to make numerous attacks during a round.

**Potion of Clarity**  
*Page 188:* Replace the item’s power with the following power. This change helps limit characters from purchasing inexpensive versions of this potion at higher level and then using them frequently on their at-will powers or high-level encounter or daily powers.
**Potion of Clarity**  
*Level 5+

This cool cyan liquid hones your physical and mental acuity at a critical moment.

**MM** This monster’s statistics can be found in the *Monster Manual*.

1 A flying mount ignores distance multipliers for difficult terrain. Distances for an aquatic mount assume it is traveling in water.

**Stop**

Page 17: Replace the movement paragraph of the stop action text with the following text. This change prevents a character from using the stop action to accelerate.

**Stop**

✦ **Action:** Move

✦ **Movement:** The vehicle stops and remains in its current position.

✦ **Direction:** The vehicle’s heading marker remains in place. If and when the vehicle moves again, it must initially move in this direction.

**Blastpatch**

Page 26: In the item’s power under the firepatch and shockpatch entry, delete “,” and the target is immobilized until the beginning of its next turn.” This change equalizes the patches and brings them within damage and condition output expectations.

**Firepatch**—2d8 fire damage.

**Shockpatch**—1d8 lightning damage, and the target grants combat advantage until the end of its next turn.

Lvl 13 +3 7,000 gp Lvl 28 +6 2,125,000 gp
Lvl 18 +4 85,000 gp

Weapon: Spiked gauntlets
Enhancement: Attack rolls and damage rolls
Critical: +1d6 damage per plus
Property: Gain a +2 item bonus to your speed when charging.

Power (Daily): Standard Action. Make a charge attack. At the end of your charge, make two melee basic attack rolls against one target using this weapon. If you hit with both, deal an extra 1d6 damage.
Level 13 and 18: +2d6 damage.
Level 23 and 28: +3d6 damage.

Implement (Holy Symbol)
Enhancement: Attack rolls and damage rolls
Critical: +1d6 damage per plus, or +1d10 damage per plus against undead or immortal creatures.

Power (Daily): Minor Action. Your next attack with this holy symbol deals an extra 1d4 damage. If the creature has the immortal origin or the undead keyword, the creature takes an extra 1d8 damage instead.
Level 14 or 19: An extra 2d4 damage or an extra 2d8 damage if the target has the immortal origin or undead keyword.
Level 24 or 29: An extra 3d4 damage or an extra 3d8 damage if the target has the immortal origin or undead keyword.

Implement (Orb)

Enhancement: Attack rolls and damage rolls

Critical: +1d6 damage per plus

Power (Daily): Free Action. Use this power when you use your Orb of Imposition class feature on a creature hit by an attack made through this implement. Increase your Orb of Imposition saving throw penalty by 2.

Quickcurse Rod

Page 99: In the item’s property, replace “a Warlock’s Curse” with “your Warlock’s Curse.” This change prevents an invoker from putting a Warlock’s Curse on a creature.

Quickcurse Rod  Level 2+

With this rod, you can curse any creature you can see, and more quickly than usual.

Though they make your hands appear larger, these thick leather wraps fit comfortably and give you an impressive grip.

**Item Slot:** Hands 17,000 gp

**Property:** Gain a +3 item bonus to grab attack rolls.

**Power (Daily):** Standard Action. While you have a creature of your size category or smaller grabbed, you can end the grab by throwing the creature, causing it to slide 6 squares. You can throw the creature at a target provided the thrown creature ends its forced movement in a space adjacent to the target. In this case, make an attack against the target: Dexterity + 4 vs. Reflex; on a hit, the thrown creature and the target each take 2d8 + Strength modifier damage and are knocked prone.

Diamond Scabbard  Level 25
A blade drawn from this diamond-studded scabbard is granted an incomparable magical edge.
Wondrous Item  625,000 gp
Property: This scabbard resizes to fit any light blade or heavy blade. You can draw a weapon from this scabbard as part of the same action used to make an attack with that weapon.
Power (Encounter): Free Action. Use this power when you attack with the weapon most recently sheathed in the scabbard. Gain a +5 power bonus to the next damage roll you make with that weapon before the end of your next turn.
The weapon must have been sheathed in the scabbard for the full duration of your extended rest to gain this power.
Golden Spade

Page 172: In the item’s power, replace burst with blast.

This magic shovel instantly clears away a section of earth, ice, or sand to create a deep trench.

Wondrous Item 21,000 gp

Power (Daily): Standard Action. Plunge the golden spade into the ground to create a pit that fills squares in a close blast 2, 3, or 4 (your choice). The pit is 2 squares deep. The pit can only form in an area of earth, ice, or sand. Any creature on the ground whose space is entirely within the bounds of the pit falls into the pit unless it makes a saving throw to catch itself (see Falling, PH 284).

Ruby Scabbard

Page 176: In the item’s power, replace “within the past 24 hours” with “for the full duration of your last extended rest.” This change prevents a character from shuffling his or her weapon in different scabbards to gain the benefit of each.

Wondrous Item 25,000 gp

Property: This scabbard resizes to fit any light blade or heavy blade. You can draw a weapon from this scabbard as part of the same action used to make an attack with that weapon.

Power (Encounter † Radiant): Free Action. Use this power when you attack with the weapon most recently sheathed in the scabbard. The next attack you make with that weapon before the end of your next turn deals radiant damage instead of its normal damage. The weapon must have been sheathed in the scabbard for the full duration of your extended rest to gain this power.

Scabbard of Sacred Might

Page 177: In the item’s power, replace “within the past 24 hours” with “for the full duration of your last extended rest.” This change prevents a character from shuffling his or her weapon in different scabbards to gain the benefit of each.

The blade drawn from this simple leather scabbard glows with a sacred radiance.

Wondrous Item 5,000 gp

Property: This scabbard resizes to fit any light blade or heavy blade. You can draw a weapon from this scabbard as part of the same action used to make an attack with that weapon.

Power (Encounter † Radiant): Free Action. Use this power when you attack with the weapon most recently sheathed in the scabbard. The next attack you make with that weapon before the end of your next turn deals radiant damage instead of its normal damage. The weapon must have been sheathed in the scabbard for the full duration of your extended rest to gain this power.

Reagents

Page 192: In the first sentence of the first paragraph, add “daily or encounter” before “power.” This change prevents high level characters from purchasing low level reagents and applying them to every use of an at-will.

Reagents enhance the use of a daily or encounter power of a specified type and level.
NEW UPDATES

ASSASSIN SHADOW
Page 67: On the Hit line, replace Strength with Intelligence. This revision syncs up the ability score modifier of the power’s damage with the swordmage’s primary ability score.

As you strike, shadows congeal into a solid figure at your foe’s flank. The silhouette looks like you, only its features are shrouded in blackness, and its sword is made of inky gloom.

**Encounter** ✦ Arcane, Conjuration, Shadow, Weapon
**Standard Action** Melee weapon
**Target:** One creature
**Attack:** Strength vs. AC
**Hit:** 2[W] + Intelligence modifier damage.
**Effect:** You conjure a shadowy manifestation of yourself. This conjuration can appear in any square adjacent to the target. This creature can be used to set up a flanking position and can make opportunity attacks (as though you were making the attacks), but it can take no other actions. The manifestation disappears at the end of your next turn.

OLD UPDATES

Promise of the Storm
Page 10: In the Effect line, replace “Until the end of your next turn, you deal 1d8 extra damage when you hit with a thunder attack or a lightning attack.” with “Until the end of your next turn, you deal 1d8 extra damage when you hit with a thunder attack or a lightning attack.”

Swordmage Warding
Page 26: Delete the third paragraph. As a defender, the swordmage is at a serious disadvantage compared to other defenders as a result of losing a significant AC bonus during combat.

While you are conscious and wielding either a light blade or a heavy blade, you maintain a field of magical force around you.

This field provides a +1 bonus to AC, or a +3 bonus if you are wielding a blade in one hand and have your other hand free (not carrying a shield, an off-hand weapon, a two-handed weapon, or anything else).

Booming Blade
Page 27: In the Hit line, replace “start of its turn and moves away” with “start of its next turn and moves away during that turn.”

Burning Blade
Page 28: Above the Attack line, add “Target: One creature.” The Target line was missing.

**Burning Blade** Swordmage Attack 1
Your fiery blade lunes toward your enemy, and its arcane warmth seeks to flare again in the wounds of your foes.

**Daily ✦ Arcane, Fire, Weapon**
**Standard Action** Melee weapon
**Target:** One creature
**Attack:** Intelligence vs. AC
**Hit:** 2[W] + Intelligence modifier fire damage.
**Effect:** Until the end of the encounter, your melee attacks deal extra fire damage equal to your Strength modifier.

Corrosive Ruin
Page 29: On the Hit line, replace “[W ]” with “d8.”

The power is an implement attack and should not be doing [W ] damage. This change helps make the power clearer.

**Corrosive Ruin** Swordmage Attack 3
You spin your blade in a tight circle in front of you, assailing foes with a spray of flesh-melting acid.

**Encounter ✦ Acid, Arcane, Implement**
**Standard Action** Close blast 3
**Target:** Each creature in blast
**Attack:** Intelligence vs. Fortitude
**Hit:** 1d8 + Intelligence modifier acid damage.

Lingering Lightning
Page 29: On the Hit line, replace “[W ]” with “d8.”

The power is an implement attack and should not be doing [W ] damage. This change helps make the power clearer.

**Lingering Lightning** Swordmage Attack 5
Tendrils of bluish white lightning course from your blade to electrocute your enemies.

**Daily ✦ Arcane, Implement, Lightning**
**Standard Action** Ranged 5
**Target:** One, two, or three creatures
**Attack:** Intelligence vs. Reflex, one attack per target
**Hit:** 1d8 + Intelligence modifier damage, and ongoing 5 lightning damage (save ends).
**Miss:** Half damage, and no ongoing damage.

Electrified Lash
Page 29: On the Hit line, replace “[W ]” with “d8.”

The power is an implement attack and should not be doing [W ] damage. This change helps make the power clearer.

**Electrified Lash** Swordmage Attack 7
You point your sword into the air, and cruel talons of white lightning reach out toward your foes.

**Encounter ✦ Arcane, Implement, Lightning**
**Standard Action** Close burst 1
Target: Each enemy in burst
Attack: Intelligence vs. Fortitude
Hit: 2d8 + Intelligence modifier lightning damage

Free the Storm Within
Page 31: Remove the weapon keyword.

Bolstering Warding
Page 31: Replace “each turn” with “your turn.”

Bounding Lightning
Page 33: On the Hit lines, replace “[W]” with “d8.”
The power is an implement attack and should not be doing [W] damage. This change helps make the power clearer.

Bounding Lightning
Swordmage Attack 25

As you hurl your blade, it flashes into a bolt of lightning, leaping from foe to foe before returning to your hand.

Daily + Arcane, Implement, Lightning
Standard Action Ranged 10
Target: One creature
Attack: Intelligence vs. Reflex
Hit: 3d8 + Intelligence modifier lightning damage.
Effect: If a second enemy is within 5 squares of the target, make a secondary attack against that enemy.
Secondary Attack: Intelligence vs. Reflex
Hit: 2d8 + Intelligence modifier lightning damage.
Effect: If a third enemy is within 5 squares of the target, make a tertiary attack against that enemy.
Tertiary Attack: Intelligence vs. Reflex
Hit: 1d8 + Intelligence modifier lightning damage.

Darkspiral Aura
Page 35: From the first line of the third paragraph, remove “Once per round as a free action.”

Spellscarred Powers
Page 41: Add the following paragraph to the Spellscarred Powers introduction:
Spellscarred learn to focus the energy of the Spell-plague through familiar tools. A spellscarred can use his or her class’s implements, as well as implements he or she can wield because of a feat, with spellscarred powers that have the implement keyword.

Shyran Cataclysm
Page 47: Replace Weapon keyword with Implement keyword.

In the top line of the power, add “Attack” between “Anarch of Shyr” and “20.” Attack information is missing from the header.

Shyran Cataclysm
Anarch of Shyr Attack 20

You slice a rift between the planes. An elemental maelstrom explodes from the rift, searing and burning all in its path.

Daily + Acid, Arcane, Cold, Fire, Lightning, Implement, Thunder

Earthurge
Page 52: In the Effect line, add “until the end of your next turn” to the end of the second sentence.

Tempest Burst
Page 53: In the Attack line, add “+ 5” after “Strength,” “Dexterity,” and “Constitution.”

Elemental Fury
Page 53: In the Attack line, add “+ 6” after “Strength,” “Dexterity,” and “Constitution.”

Shadow Hand Attack
Page 55: In the Hit line, add “+ Dexterity modifier” to the end of the sentence.

Spellfire Healing
Page 64: Add the “Healing” keyword.

Tumbling Gale
Page 70: Add “within 10 squares” after “Area burst 2” in the Range line.

Firesoul Conflagration
Page 71: In the Hit line, add “modifier” after “Strength or Constitution.”

Renewing Dawn
Page 73: In the Effect line, add “before the end of your next turn” after “When you or one of your allies spends a healing surge.”

Channel Divinity: Blessing of Silvanus
Page 132: In the Target line, replace “One ally” with “The triggering ally.”
Remove the first Special line.

Double Aegis
Page 138: In the first sentence of the Benefit line, replace “aegis of shielding power or aegis of assault power” with “Swordmage Aegis power.” This feat should take into account future aegises, such as the one that appears in Arcane Power.

Benefit: When you use your Swordmage Aegis power, you can choose to also mark a second target within the burst.
**Total Aegis**

Page 139: In the first sentence of the Benefit line, replace “aegis of shielding power or aegis of assault power” with “Swordmage Aegis power.” This feat should take into account future aegises, such as the one that appears in Arcane Power.

**Benefit:** When you use your Swordmage Aegis power, you can choose to mark any number of targets within burst.

**Channel Divinity:**

**Righteous Rage of Tempus**

Page 136: Replace the power’s Effect line. This revision updates the Effect line to reflect damage expectations and baseline for channel divinity feats. This revision limits the power of builds created to optimize critical hits.

*Prerequisites:* Channel Divinity class feature, must worship Tempus

**Benefit:** You can invoke the power of your deity to use righteous rage of Tempus.

---

**Channel Divinity:**

<table>
<thead>
<tr>
<th>Righteous Rage of Tempus</th>
</tr>
</thead>

</tbody>
</table>

**Effect:** If you hit with the next weapon attack that you make before the end of your next turn and it isn’t a critical hit, you roll the extra damage dice that you would roll if you scored a critical hit and deal the result as extra damage. If the attack is a critical hit, its extra damage is maximized.

**Special:** You must take the Righteous Rage of Tempus feat to use this power.

**Improved Darkspiral Aura**

Page 138: In the first paragraph, change “1d8” to “1d10.”

In the second paragraph, delete everything before “at 21st level.”

**Merciless Killer**

Page 138: In the Benefit line, add “against that enemy” to the end of the sentence.

**Blade Initiate**

Page 139: In the Benefit section, add “as a minor action” to the end of the second sentence. At the end of the Benefit section, add “In addition, you can use swordmage implements.”
Draconomicon: Chromatic Dragons

Old Updates

Naming
Page 26: In the second sentence of the Naming section, delete mention of the sidebar. The sidebar was cut from the book.

Dragons have a long history of impressive, terrible names capable of generating fear when merely spoken. A dragon’s name has no intrinsic power; rather, the dragon associated with a name is so fearsome that any listener familiar with the dragon’s exploits might be stricken with associative fright. Listeners shudder when they hear of the exploits of Dragotha, the undead dragon. They cry out in amazement to learn of the dragon Ashardalon, who replaced his own heart with a demon heart. Who can forget Cyan Bloodbane, who nearly destroyed the ancient elven nation of Silvanesti on the world of Krynn?

Young Brown Dragon

Adult Pact Dragon
Page 191: In the adult pact dragon’s astral jaunt power, remove “encounter.”

Adult Wretch Dragon
Page 197: In the adult wretch dragon’s bite attack, add “(save ends)” after the ongoing damage.

Winged Putrescence
Page 205: In the winged putrescence’s claw attack, replace “Large or larger” with “Large or smaller.”

Wrack Abishai
Page 210: In the shadow meld power, replace “at-will” with “recharge 5 6.” The power makes the creatures too powerful.

Young Purple Dragon
Page 201: In the young purple dragon’s breath weapon, replace “necrotic” with “psychic.”

Dragonborn Fire Adept
Page 215: In fiery denial, delete “8 squares long” and “.” The length of the wall described in the power’s effect does not match the length at the beginning of the power.

Bluespawn Stormlizard
Page 221: On the Hit Points line, replace 217 with 117 and replace 108 with 58.

Squamous Spitter

**Frightful Cacophony (Fear) aura 5; any enemy that starts its turn within the aura that is taking ongoing psychic damage is pushed 3 squares.**

**Ashardalon**

Page 232: On the HP line, replace “1,660” with “1,200” and “830” with “600.” Hit points are incorrect. The hit points were too high for even Monster Manual guidelines. This change adjusts the monster hit points based on Dungeon Master’s Guide 2 and Monster Manual 2 standard.

**Aspect of Tiamat**

Page 246: In the aspect of Tiamat’s chromatic breath power, replace “4d20 + 12” with “4d10 + 12.”
Old Updates

Battlerager Vigor
Page 6: Add “You gain the hit points only after the attack is resolved” to the end of the first two paragraphs. This change provides clearer timing for the acquisition of the temporary hit points. This update ensures that a character does not gain the benefit of the feature’s third paragraph on the same attack granting temporary hit points to him or her.

Old Update: Delete the first two paragraphs and replace them with the following text. The first two paragraphs of original text were removed because they allowed the battlerager to gain excessive temporary hit points and thus ignore most standard monster attacks and all minion attacks.

Whenever you hit an enemy with a melee or a close attack, you gain temporary hit points equal to your Constitution modifier, plus any temporary hit points normally granted by the power. You gain the hit points only after the attack is resolved.

If you use an invigorating fighter attack power and miss every target with it, you gain temporary hit points equal to your Constitution modifier. You gain the hit points only after the attack is resolved.

Dual Strike
Page 7: Replace the power’s Target, Attack, and Hit lines. This revision updates the power’s format for clarity, and it revises the Hit line to exclude “Strength modifier” in damage so that the fighter is not achieving striker level damage with this attack.

Dual Strike
You lash out quickly and follow up faster, delivering two small wounds.

At-Will ✦ Martial, Weapon
Standard Action Melee weapon
Requirement: You must be wielding two melee weapons.
Primary Target: One creature
Primary Attack: Strength vs. AC (main weapon)
Hit: 1[W] damage.
Effect: Make a secondary attack.
Secondary Target: One creature other than the primary target
Secondary Attack: Strength vs. AC (off-hand weapon)
Hit: 1[W] damage.
Level 21: 2[W] damage per attack.

Footwork Lure
Page 7: On the Hit line, add “1 square” between “target” and “into.” This change prevents a player from using the power to slide an enemy throughout the battlefield.

Below the Hit line, add “Increase damage to 2[W] + Strength modifier at 21st level.”

Footwork Lure
You press the attack, engaging your enemy before falling back and drawing him after you.

At-Will ✦ Martial, Weapon
Standard Action Melee weapon
Target: One creature
Attack: Strength vs. AC
Hit: 1[W] + Strength modifier damage. You can shift 1 square and slide the target 1 square into the space you left.

Advance Lunge
Page 10: Add “Target: One creature” above the Attack line.

Quicksilver Stance
Page 16: In the first sentence of the effect line, replace “1 square” with “half your speed” and “2 squares” with “your speed.”

Also in the first sentence, replace “move action” with “standard action.” This change helps balance the damage output of this power.

Quicksilver Stance
Like liquid metal, you flow wherever the gravity of battle carries you.

Daily ✦ Martial, Stance
Minor Action Personal
Effect: Until the stance ends, you can shift half your speed (or your speed if you aren’t wearing heavy armor) and make a melee basic attack as a standard action. If you have combat advantage against the target of the attack and hit, the attack deals extra damage equal to your Wisdom modifier.

Unfailing Resources
Page 25: In the second paragraph of the path feature, replace “free action” with “minor action.” This change helps mitigate the power of this path feature by preventing it from being used when it is not your turn.

Unfailing Resources (11th level): Your maximum hit point value increases by 10.

As a minor action, you can take 10 damage to save automatically against an effect that a save can end. You must have at least 10 hit points to use this ability, and you can’t reduce this damage by any means.
**Line-Breaker Assault**

Page 25: On the Hit line, add “3 squares” between “target” and “to.” This change prevents a player from using the power to slide an enemy throughout the battlefield.

**Wanderer’s Action**

Page 64: Replace the path feature’s text with the following: “When you spend an action point to take an extra action, you can also take a move action before or after that action.” This path feature combined with the Warmaster epic destiny allows a character to take an infinite number of move actions. This change closes this loophole.

**Bleed Away**

Page 66: In the Effect line, add “(save ends)” after “ongoing 10 damage.”

**Spitting-Cobra Stance**

Page 47: In the Effect line, replace “opportunity action” with “immediate reaction.” As previously written, a party that keeps withdrawing from enemies and toward the ranger each turn allows the ranger to continuously attack every enemy. This change helps balance the damage output of this power.

**Ruthless Ruffian**

Page 73: In the first sentence of the Ruthless Ruffian class feature, add “or rogue paragon path power” after “rogue power.”

**Downward Spiral**

Page 76: Add the Weapon keyword.

**Brisk Stride**

Page 79: The power is an encounter power and should have a red stripe, not a black stripe.

**Escape Artist’s Gambit**

Page 82: Add “Target: One creature” above the Attack line.

**Bladed Fusillade**

Page 92: In the Keywords line, replace “Encounter” with “Daily.”

**Thick As Thieves**

Page 93: Add “against the flanked creature” after “to melee damage rolls.”

**Hammer Formation**

Page 103: In the Hit line, add “weapon” before “attack.”

**Guileful Switch**

Page 107: Replace “Minor Action” with “Free Action.” Add the following line above the Effect line: “Requirement: You must use this power during your turn before you take any other actions.” This revision updates the action type and adds a requirement. This revision prevents a character from using this power to gain extra actions by switching with an ally after expending a move and a standard action during his or her turn.
Guileful Switch
You spring a trap on your opponents, surprising them with your clever stratagem.

Encounter  ✦ Martial
Free Action  Personal
Requirement: You must use this power during your turn before you take any other actions.
Effect: You and one ally you can see switch places in the initiative order. Your turn ends when you use this power, and the ally takes his or her next turn immediately, even if he or she has already acted during this round. You then act when your ally would have acted.

Deadly Returns
Page 107: Next to the Action line, add “Melee weapon” range.

Dwarf Stoneblood
Page 133: Replace the Benefit line with the following: “Benefit: You gain a +2 feat bonus to the number of temporary hit points you gain from using an invigorating power. The bonus increases to 4 at 11th level and 6 at 21st level.” This update revises the previous Benefit line to work with revised Battlerager Vigor class feature.

Prerequisites: Dwarf, fighter, Battlerager Vigor class feature
Benefit: You gain a +2 feat bonus to the number of temporary hit points you gain from using an invigorating power. The bonus increases to 4 at 11th level and 6 at 21st level.

Improved Vigor
Page 136: Replace the Benefit line with the following: “Benefit: You gain a +1 feat bonus to the number of temporary hit points you gain from using an invigorating power. The bonus increases to 2 at 11th level and 3 at 21st level.” This update revises the previous Benefit line to work with revised Battlerager Vigor class feature.

Prerequisites: Fighter, trained in Endurance
Benefit: You gain a +1 feat bonus to the number of temporary hit points you gain from using an invigorating power. The bonus increases to 2 at 11th level and 3 at 21st level.

Marked Scourge
Page 144: Replace the text on the Benefit line with the following: “Once per round, you can add your Wisdom modifier to your damage roll against an enemy marked by you.”

Reckless Attacker
Page 144: Replace the first sentence of the Benefit entry with the following: “The first time you score a critical hit with a fighter attack power on your turn, you can make a melee basic attack as a free action.” Due to multiattack powers, this feat allows a character to deal a disproportionate amount of damage. This change helps balance the damage output.

Benefit: The first time you score a critical hit with a fighter attack power on your turn, you can make a melee basic attack as a free action. If you do so, you take a –2 penalty to AC until the end of your next turn.
Old Updates

**Loyal Unto Death**

*Page 144:* In the Attack and Hit lines, replace “Strength” with “Intelligence.” The power should be attacking with Intelligence, since that is a swordmage’s primary ability score.

**Loyal Unto Death**

In a flash of light, you and a nearby ally vanish, reappearing only after you have switched positions.

Encounter + Arcane, Teleportation, Weapon

**Standard Action** Melee weapon

**Target:** One creature

**Effect:** Before the attack, you and an ally within 10 squares of you swap places, teleporting into each other’s space. Each enemy adjacent to you grants combat advantage to you, and each enemy adjacent to the ally grants combat advantage to him or her until the end of your next turn.

**Secondary Target:** One enemy

**Attack:** Intelligence vs. AC

**Hit:** 3[W] + Intelligence modifier damage.

**Dark Acolyte of Graz'zt**

*Page 133:* In the *dying whispers* power, add “until the end of the acolyte’s next turn” to the end of the line. The power has no duration. The power triggers on death, so although the acolyte is no longer acting, the duration extends until when it would normally end its next turn.

**Dying Whispers** (when reduced to 0 hit points by an attack)

Allies within 5 squares of the dark acolyte gain combat advantage against the attacker until the end of the acolyte’s next turn.

---

**Rod of Time Distortion**

*Page 155:* Replace “Implement (Orb)” with “Implement (Rod).” The implement is intended to be used as a rod, not an orb.

**Rod of Time Distortion**

This crystal rod allows you to distort time as you cast a spell, depriving an enemy of the opportunity to retaliate.

**Jet Black Ioun Stone**  
Page 39: In the artifact’s Satisfied power, replace “Immediate Reaction” with “Free Action.” A creature cannot use immediate actions during its turn, so the power is rarely usable without the change.

**Power (Daily ✦ Weapon):** Free Action, when you successfully hit your prey with a melee attack. Requires a melee weapon. Choose one of the following: target loses a healing surge, target loses an action point, or target takes ongoing 10 necrotic damage (save ends).

**Von Zarovich Family Sword**  
Page 47: In the item’s second power, replace “Immediate Reaction” with “Free Action.” As an immediate reaction, the power is almost unusable. Most of the time, a creature uses the power during its turn, when immediate actions cannot be used.

**Power (Daily ✦ Weapon):** Free Action, when you hit with the Sword. The target is weakened (save ends), and you gain 20 temporary hit points.

**Crawling Gauntlet**

  - **Attack:** See the infected zombie template, page 217.
  - **Endurance:** improve DC 15 + one-half infected zombie’s level, stable DC 10 + one-half infected zombie’s level, worsen DC 9 + one-half infected zombie’s level or lower

  - **The target is cured.**

  - **<> Initial Effect:** The target regains only half the normal number of hit points from healing effects.

  - **<> The target regains only half the normal number of hit points from healing effects.**

  - **<> Final State:** The afflicted creature dies and immediately rises as an infected zombie of the former creature’s level.
NEW UPDATES

WILD SHAPE
Page 84: In the second paragraph of the power’s Effect entry, add the following phrase at the end of the last sentence: “except a shield.” This update clarifies how you treat a shield when you use wild shape.

You choose a specific form whenever you use wild shape to change into beast form. The beast form is your size, resembles a natural beast or a fey beast, and normally doesn’t change your game statistics or movement modes. Your equipment becomes part of your beast form, but you drop anything you are holding, except implements you can use. You continue to gain the benefits of the equipment you wear, except a shield.

CALL SPIRIT COMPANION
Page 120: Replace the second sentence of the Effect entry with the following sentence: “The spirit lasts until you fall unconscious, until you dismiss it as a minor action, or until you use this power again.” This update clarifies that you cannot have multiple spirits conjured by your call spirit companion.

Your soul reaches out to your spirit friend, which faithfully appears at your side.

At-Will • Conjuration, Primal
Minor Action Close burst 20
Effect: You conjure your spirit companion in an unoccupied square in the burst. The spirit lasts until you fall unconscious, until you dismiss it as a minor action, or until you use this power again. The spirit occupies 1 square. Enemies cannot move through its space, but allies can. When you take a move action, you can also move the spirit a number of squares equal to your speed.

The spirit can be targeted by melee or ranged attacks, although it lacks hit points. If a single melee or ranged attack deals damage to the spirit equal to 10 + one-half your level or higher, the spirit disappears, and you take damage equal to 5 + one-half your level. Otherwise, the spirit is unaffected by the attack.

GUARANTEED RETRIBUTION
Page 185: In the Benefit entry, add “feat” before “bonus to attack rolls.” This change revises an earlier update and provides a more elegant solution to problems with stacking bonuses. This revision allows feats that offer small bonuses to provide untyped bonuses (Guaranteed Retribution, for example), and it means that feats like Draconic Spellcaster can provide greater benefit to players that design their characters toward specific builds. Note that this update intentionally makes certain feats (which will not be updated) obsolete.

Benefit: Choose a type of implement. You gain a +1 feat bonus to attack rolls with any implement power you use through that type of implement. The bonus increases to +2 at 15th level and +3 at 25th level.

WEAPON EXPERTISE
Page 190: In the second sentence of the Benefit entry, add “feat” before “bonus to attack rolls.” This change revises an earlier update and provides a more elegant solution to problems with stacking bonuses. This revision allows feats that offer small bonuses to provide untyped bonuses (Guaranteed Retribution, for example), and it means that feats like Draconic Spellcaster can provide greater benefit to players that design their characters toward specific builds. Note that this update intentionally makes certain feats (which will not be updated) obsolete.

Benefit: Choose a weapon group. You gain a +1 feat bonus to attack rolls with any weapon power you use with a weapon from that group. The bonus increases to +2 at 15th level and +3 at 25th level.

SPIRIT TALKER
Page 196: Replace the third paragraph in the Benefit entry with the following text: “Choose a Companion Spirit option. You gain the at-will shaman power associated that option, such as spirit’s shield or spirit’s fang.” This change allows characters to use this shaman multiclass feat to select options from Primal Power, such as spirit’s prey or world speaker’s command.

FLUTE OF THE DANCING SATYR
Page 210: In the item’s power, replace “Encounter” with “Daily.” This item is very powerful at higher levels when multiple copies can be easily purchased. The encounter usage allows multiple characters to possess and use the item during combat.

Carved from wood and inscribed with arcane glyphs, this flute can play a tune of speed and elegance.

Wondrous Item 1,800 gp
Power (Daily): Move Action. You shift 2 squares, and each ally within 5 squares of your destination space can shift 1 square as a free action.
Old Updates

Accurate Action
Page 29: Replace the path feature’s text with the following: “When you spend an action point to make an attack, you can roll twice for one of that attack’s attack rolls and use either result.” This change prevents the path feature from applying to multiple attack rolls on attacks that target a group of enemies.

Accurate Action (11th level): When you spend an action point to make an attack, you can roll twice for one of that attack’s attack rolls and use either result.

Armor of Faith
Page 33: Replace the second sentence with the following: “While you are wearing cloth armor or no armor and aren’t using a shield, you gain a +3 bonus to AC.” This change reflects the feature’s design intent. Avengers are not supposed to gain the benefit of this feature while wearing leather or hide.

While you are wearing cloth armor or no armor and aren’t using a shield, you gain a +3 bonus to AC.

Oath of Consuming Light
Page 37: On the Hit line, add “modifier” between “Wisdom” and “radiant.”

Oath of Consuming Light
You place a burning mark of divine radiance on your foe as you swear an oath to destroy this creature. With every wound you inflict on the creature, the burning mark erupts in searing light.

Daily + Divine, Implement, Radiant
Standard Action Ranged 10
Target: One creature
Attack: Wisdom vs. Reflex
Hit: 2d10 + Wisdom modifier radiant damage. Whenever you hit the target with a divine power, the target takes 1d6 extra radiant damage (save ends).
Affect: Whenever you hit the target with a divine power, the target takes 1d4 extra radiant damage (save ends).
Miss: Half damage. Whenever you hit the target with a divine power, the target takes 1d4 extra radiant damage (save ends).

Twin Step
Page 42: Add the Teleportation keyword. The power includes teleportation but lacked the keyword.

Twin Step
You appear next to a foe, launch a devastating assault, and then disappear beyond its reach.

Encounter + Divine, Teleportation
Move Action Personal
Effect: You teleport 8 squares. As the last action of your turn, you can teleport 8 squares as a free action.

Rage Strike
Page 50: Between 19th level and 25th level, add the following: “20th level 7[W] + Strength modifier.” Some paragon paths provide rage powers, so this change allows a barbarian to swap those powers when using rage strike.

Rage Strike
You channel your primal rage into a devastating attack.

Daily (Special) + Primal, Weapon
Standard Action Melee
Requirement: You must be raging and have at least one unused barbarian rage power.
Target: One creature
Attack: Strength vs. AC. To make this attack, you expend an unused barbarian rage power.
Hit: You deal damage based on the level of the rage power you expend:
- 1st level 3[W] + Strength modifier
- 5th level 4[W] + Strength modifier
- 9th level 5[W] + Strength modifier
- 15th level 6[W] + Strength modifier
- 19th level 7[W] + Strength modifier
- 20th level 7[W] + Strength modifier
- 25th level 8[W] + Strength modifier
- 29th level 9[W] + Strength modifier
Miss: Half damage.
Special: You can use this power twice per day.

Devastating Strike
Page 50: On the Requirement line, replace “a two-handed weapon” with “a melee weapon in two hands.” This change allows Small characters to use this power by wielding versatile weapons.

Devastating Strike
You strike with awesome power, more concerned with offensive strength than defensive posturing.

At-Will + Primal, Weapon
Standard Action Melee weapon
Requirement: You must be wielding a melee weapon in two hands.
Target: One creature
Attack: Strength vs. AC
Hit: 1[W] + 1d8 + Strength modifier damage.
Level 11: 1[W] + 2d8 + Strength modifier damage.
Level 21: 2[W] + 3d8 + Strength modifier damage.
Effect: Until the start of your next turn, any attacker gains a +2 bonus to attack rolls against you. If you are raging, attackers do not gain this bonus.
**Howling Strike**

Page 50: On the Requirement line, replace “a two-handed weapon” with “a melee weapon in two hands.” This change allows Small characters to use this power by wielding versatile weapons.

**Recuperating Strike**

Page 51: On the Requirement line, replace “a two-handed weapon” with “a melee weapon in two hands.” This change allows Small characters to use this power by wielding versatile weapons.

**Storm of Blades**

Page 56: Delete the last two sentences of the Hit line. Add the following text at the end of the Attack line:

"Repeat the attack until you miss or until you make three attacks. As soon as an attack misses, this power ends."

**Storm of Blades**

Barbarian Attack 13

You lift your weapon again and again, each blow’s impact fueling the next swing.

Encounter + Primal, Weapon

Standard Action Melee weapon

Target: One creature

Attack: Strength vs. AC. Repeat the attack until you miss or until you make three attacks. As soon as an attack misses, this power ends.

Hit: 1[W] + Strength modifier damage.

**Hurricane of Blades**

Page 60: On the line, replace “1[W ]” with “2[W ].” On the Effect line, replace “five more times” with “three more times.” This change helps balance the damage output of this power.

**Hurricane of Blades**

Barbarian Attack 27

You become a tempest of steel, ripping through your foes in a horrific display of carnage.

Encounter + Primal, Weapon

Standard Action Melee weapon

Target: One creature

Attack: Strength vs. AC

Hit: 2[W] + Strength modifier damage.

Effect: Make the attack three more times against the same target or different ones.

**Song of Storms**

Page 73: On the Hit line, delete the second sentence and add a line below the Hit line that reads “Effect: If the attack hits at least once, each ally in the blast deals 1d6 extra lightning damage whenever he or she hits before the end of your next turn.” The power’s former wording meant that allies would be dealing 1d6 extra damage per enemy that was hit, which was not the intent.

**Song of Storms**

Bard Attack 13

With a sonorous hum, you summon lightning, blasting your foes with it and imbuing your allies’ attacks with its power.

Encounter + Arcane, Implement, Lightning

Standard Action Close blast 5

Target: Each enemy in blast

Attack: Charisma vs. Reflex

Hit: 2d6 + Charisma modifier lightning damage.

Effect: If the attack hits at least once, each ally in the blast deals 1d6 extra lightning damage whenever he or she hits before the end of your next turn.

**Call of the Beast**

Page 84: On the Target line, replace “creature” with “enemy.” This prevents a weird situation from occurring, in which an ally you hit with this attack is forced to attack you during its next turn.

**Call of the Beast**

Druid Attack 1

You draw forth the savagery that dwells in every creature, compelling your enemies to fight without forethought or plan.

At-Will + Charm, Implement, Primal, Psychic

Standard Action Area burst 1 within 10 squares

Target: Each enemy in burst

Attack: Wisdom vs. Will

Hit: The target can’t gain combat advantage until the end of your next turn. In addition, on its next turn the target takes psychic damage equal to 5 + your Wisdom modifier when it makes any attack that doesn’t include your ally nearest to it as a target.

Level 21: 10 + Wisdom modifier psychic damage.
Primal Bear
Page 92: Delete the "Healing" keyword.

Primal Bear Druid Attack 19
You transform into a dire bear, grabbing your foes and squeezing the life from their bodies.

Daily ♦ Beast Form, Implement, Primal
Standard Action Melee touch
Target: One creature
Attack: Wisdom vs. Fortitude
Hit: 3d10 + Wisdom modifier damage, and you grab the target. Until the grab ends, the target takes 10 damage at the start of your turn.
Miss: Half damage, and you grab the target.
Effect: Until the end of the encounter, while you are in beast form, you gain a +2 bonus to AC and Fortitude.

Blood Debt
Page 110: On the Hit line, add “modifier” between “Wisdom” and “radiant.”

Blood Debt Invoker Attack 17
Each wound your foe deals adds to its mounting debt of blood and invites your allies' retribution.

Encounter ♦ Divine, Implement, Radiant
Standard Action Ranged 10
Target: One creature
Attack: Wisdom vs. Will
Hit: 3d10 + Wisdom modifier radiant damage. Until the end of your next turn, each creature that the target attacks gains a +2 bonus to its next attack roll against the target.
Covenant of Wrath: The bonus to the attack roll equals 1 + your Constitution modifier.

Warding Thunder
Page 117: On the Effect line, replace the last sentence with the following text. This change prevents the attack from being recursive.

If any enemy attacks that ally, you can make the following attack against each enemy within the zone as a free action:

Warding Thunder Hammer of Vengeance Attack 20
You surround yourself and your allies with a ward of thunder, which batters your enemies. One of your allies carries your mark of protection, so if your foes attack that ally, the ward erupts in thunder again.

Daily ♦ Divine, Implement, Thunder, Zone
Standard Action Area burst 2 within 10 squares
Target: Each enemy in burst
Attack: Wisdom vs. Fortitude
Hit: 5d6 + Wisdom modifier thunder damage.
Effect: The burst creates a zone of warding thunder that lasts until the end of your next turn. Choose an ally when the zone is created. If any enemy attacks that ally, you can make the following attack against each enemy within the zone as a free action: 
Attack: Wisdom vs. Fortitude
Hit: 5d6 + Wisdom modifier thunder damage.
Sustain Minor: The zone persists.

Spirit of Elder Wisdom
Page 131: In the second sentence of the power’s Hit line, replace “misses” with “doesn’t hit.” Current text doesn’t take into account attacks that target multiple creatures, meaning a character that misses with one attack out of five on an area burst power does not expend it.

Spirit of Elder Wisdom Shaman Attack 27
A spirit elder clad in robes and bearing a staff appears next to your foe. Lightning arcs from the spirit’s hands to shock that foe. The spirit lends counsel to your allies, ensuring that their efforts are not wasted.

Encounter ♦ Implement, Lightning, Primal
Standard Action Ranged 10
Target: One creature
Attack: Wisdom vs. Will
Hit: 3d8 + Wisdom modifier lightning damage, and the target is dazed until the end of your next turn. Any ally adjacent to your spirit companion who doesn’t hit with an encounter attack power before the end of your next turn does not expend the use of that power.

Chains of Fire
Page 143: Add the Teleportation keyword. In the second sentence of the Hit line, replace “slide” with “teleport.” The power didn’t specify how far you can slide the target. Instead of allowing a character to slide the target an inordinate distance, the power is being changed to teleportation to emulate the effect.

Chains of Fire Sorcerer Attack 13
Fiery serpents wrap around your foes and drag them together, holding them close.

Encounter ♦ Arcane, Fire, Implement, Teleportation
Standard Action Ranged 10
Target: One or two creatures
Attack: Charisma vs. Reflex
Hit: 2d8 + Charisma modifier fire damage. If you hit two targets with this power, you teleport one of them to a space that must be adjacent to the other, and until the end of your next turn, the two targets take 1d10 fire damage the first time they are more than 3 squares apart.
**Form of the Frenzied Wolverine**  
*Page 159:* Above the Hit line, add “Attack: Strength vs. AC.” The information was missing.

---

**Form of the Frenzied Wolverine**  
**Warden Attack 9**  
You strike wounded foes with particular ferocity. When the time is right, you make a brutal attack against your chosen foe, opening a bleeding wound.

- **Daily + Polymorph, Primal**  
- **Minor Action**  
  - **Effect:** You assume the guardian form of the frenzied wolverine until the end of the encounter. While you are in this form, you gain a +2 bonus to attack rolls against any enemy that is bloodied or taking ongoing damage. In addition, you can use your second wind as a minor action.
  - Once during this encounter, you can make the following weapon attack while you are in this form.

  - **Standard Action**  
    - **Melee weapon**  
      - **Target:** One creature  
      - **Attack:** Strength vs. AC  
      - **Hit:** 1[W] + Strength modifier damage, and ongoing 5 damage (save ends).  
      - **Miss:** Half damage, and ongoing 2 damage (save ends).

---

**Lorekeeper’s Cunning**  
*Page 173:* In the second paragraph of the destiny feature, add “non-Creation” before the first occurrence of “ritual.” This change keeps the ring from adversely affecting the game’s economy.

**Lorekeeper’s Cunning (24th level):** When you are making a skill check for any ritual, you can roll twice and use either result.

  - You can double the time it takes to perform a non-Creation ritual to reduce the component cost of that ritual by half.
  - In addition, whenever you score a critical hit against a creature whose origin is within the purview of one of your trained skills, you gain a +2 bonus to attack rolls against that creature until the end of your next turn.

---

**Improved Armor of Faith**  
*Page 185:* In the Prerequisite line, change “armor of faith power” to “Armor of Faith class feature.”

  - Also, replace the first sentence with the following: “While you are wearing cloth armor or no armor and aren’t using a shield, you gain a +1 bonus to AC.” This change syncs the feat up with the revised Armor of Faith text.

  - **Prerequisite:** Avenger, Armor of Faith class feature  
  - **Benefit:** While you are wearing cloth armor or no armor and aren’t using a shield, you gain a +1 bonus to AC. The bonus increases to +2 at 11th level and +3 at 21st level.

---

**Strength of Valor**  
*Page 189:* On the Benefit line, replace “your next turn” with “his or her next turn.” This change ensures that the duration of the effect doesn’t expire before the ally has the chance to take advantage of it.

  - **Benefit:** When you grant an ally temporary hit points with your Virtue of Valor, that ally also gains a +2 bonus to the next damage roll he or she makes before the end of his or her next turn next turn.

---

**Agile Opportunist**  
*Page 190:* On the Benefit line, replace “opportunity action” with “immediate reaction.” This change is necessary to prevent characters from making an inordinate number of basic attacks.

  - **Benefit:** When you are pulled, pushed, or slid into a square adjacent to an enemy, you can use an immediate reaction to make a melee basic attack against that enemy.
**ARCANE POWER**

**New Updates**

**Vigorous Cadence**

Page 9: In the Effect entry, replace “whenever” with “the first time.” In addition, add “during each of its turns” after “attack roll.” This power’s effect is over-powered against solos and elites, because those creatures are making many more attacks each round compared to normal creatures.

**Vigorous Cadence**

**Effect:** Until the end of the encounter, the first time the target makes an attack roll during each of its turns, your ally nearest to it regains hit points equal to your Charisma modifier.

**Ensnaring Swordmage**

Page 50: In the Suggested At-Will Powers entry, replace “stalker’s strike” with “lightning lure.” The text is incorrect. Stalker’s strike is not a swordmage power.

**Suggested At-Will Powers:** luring strike, lightning lure

**Draconic Spellcaster**

Page 125: In the first sentence of the Benefit entry, add “and damage rolls” after “attack rolls.” This change ensures that this feat continues to provide a benefit despite changes to the Weapon Expertise and Implement Expertise feats.

**Benefit:** You gain a +1 feat bonus to attack rolls and damage rolls when you use an arcane power that deals the same damage type as your breath weapon. The bonus increases to +2 at 15th level and to +3 at 25th level.

**Old Updates**

**Spark Form**

Page 32: Replace all the power’s text below its keywords. The power’s former text has a target other than you, and thus it is not a personal power.

**Bounding Bolt**

Page 33: On the Hit and Miss lines, replace “Intelligence modifier” with “Charisma modifier.” The ability scores used for attack and damage did not agree.
Azure Talons

Page 37: On the Dragon Magic line, replace “Dexterity” with “Strength.” Dragon magic is based on Strength, not Dexterity.

Sorcerer Attack 17

Blue claws of lightning materialize around you and slash at foes that remain too close.

Encounter + Arcane, Implement, Lightning
Standard Action Close burst 2
Target: Each enemy in burst
Attack: Charisma vs. Reflex
Hit: 3d8 + Charisma modifier lightning damage. If the target ends its next turn within 2 squares of you, it takes 5 lightning damage.

Dragon Magic: If the target ends its next turn within 2 squares of you, it takes lightning damage equal to 5 + your Strength modifier.

Thunderstroke

Page 37: On the Hit line, replace the second sentence with the following: “If the target is in the burst’s origin square, it takes 3d8 extra lightning damage.” As previously written, the creature at the center of the burst was taking the damage every time the attack hit another creature in the burst, which was not the intent.

Sorcerer Attack 17

A stroke of lightning strikes your foe from overhead, followed by a concussive boom.

Encounter + Arcane, Implement, Lightning, Thunder
Standard Action Area burst 1 within 20 squares
Target: Each creature in burst
Attack: Charisma vs. Reflex
Hit: 2d8 + Charisma modifier thunder damage. If the target is in the burst’s origin square, it takes 3d8 extra lightning damage.

Storm Magic: A target hit by this power is also knocked prone.

Unsnaring Swordmage

Page 50: On the Suggested At-Will Powers line, replace “foesnare†” with “luring strike.” The foesnare power does not reflect the intent of the build.

Suggested At-Will Powers: luring strike, stalker’s strike*

Unicorn’s Touch

Page 55: The power should be a daily power. Replace “Encounter” with “Daily” on the keyword line. The power should have been daily due to the healing it provides.

Swordmage Utility 6

Your blade briefly adopts the appearance of a unicorn horn, sending out a focused pulse of curative energy.

Daily + Arcane, Healing
Minor Action Close burst 1
Target: You or one ally in burst
Effect: The target either rolls a saving throw or regains hit points equal to 5 + your Constitution modifier.

Fist of Force

Page 57: Above the Attack line, add “Target: One creature.” The target line is absent from the power.

Swordmage Attack 13

Your foe might be expecting a strike of the sword, but instead it gets a force-empowered fist in the face.

Swordmage Attack 15

Your blade moves in a blur as you assail your foe with cuts. Then, from those cuts, you summon flames to engulf your foe.

Daily + Arcane, Fire, Weapon
Primary Target: One creature
Primary Attack: Intelligence vs. Fortitude
Hit: 2d10 + Intelligence modifier force damage.

Aegis of Assault: The attack deals extra damage equal to your Strength modifier.

Effect: You push the target a number of squares equal to your Strength modifier and knock it prone.

Assault of Fiery Cuts

Page 58: Delete implement keyword. The power deals [W] damage and should thus have only the weapon keyword.

Swordmage Attack 15

Your blade moves in a blur as you assail your foe with cuts. Then, from those cuts, you summon flames to engulf your foe.

Daily + Arcane, Fire, Weapon
Primary Target: One creature
Primary Attack: Intelligence vs. Fortitude
Hit: 2d10 + Intelligence modifier weapon damage.

Effect: Make a secondary attack that is an area burst 3 implement attack centered on the primary target. The secondary attack does not provoke opportunity attacks.

Secondary Target: Each enemy in burst
Secondary Attack: Intelligence vs. Reflex
Hit: 1d6 + Intelligence modifier fire damage.

Oni’s Gift

Page 61: On the Effect line, replace “start” with “end.” There is no way to sustain the power unless it lasts until the end of your next turn.

Swordmage Utility 22

Like the oni of children’s fairy tales, you can disappear from view until you are ready to strike.

Daily + Arcane, Illusion
Minor Action Personal
Effect: You are invisible until the end of your next turn or until you attack.

Sustain Minor: You stay invisible or, if you are no longer invisible because you attacked, you become invisible again.
**Mirrorblade Army**

Page 63: At the end of the third paragraph in the effect line, add “Otherwise, the conjurations last until the end of your next turn.” The conjurations lack a duration.

---

**Mirrorblade Army**

**Swordmage Attack 29**

From your image reflected in your blade, you conjure an army of duplicates to help assault your foes anywhere on the battlefield.

**Daily ★ Arcane, Conjuration**

**Standard Action**

**Ranged 10**

**Effect:** You conjure a number of mirror images of yourself equal to your Constitution modifier (minimum 1) within range. Each mirror image occupies 1 square. Enemies cannot move through an image’s space, but allies can.

You can make attacks, including opportunity attacks, as though you occupied the same space as a mirror image. A mirror image still provokes opportunity attacks as normal for using a ranged or an area attack.

A mirror image can be targeted by attacks. It has the same defenses, resistances, and immunities as you. A mirror image has 1 hit point, and a missed attack never damages it. A mirror image reduced to 0 hit points is destroyed. Otherwise, the conjurations last until the end of your next turn.

**Sustain Minor:** The effect persists.

---

**Transcendent Dance**

Page 80: On the Effect line, replace “Dexterity” with “Intelligence.” Dexterity is not supported by warlock builds.

---

**Transcendent Dance**

**Warlock Utility 10**

For a moment, your mind and body are in harmony, and you achieve the pinnacle of grace and speed.

**Daily ★ Arcane**

**Minor Action**

**Personal**

**Effect:** Until the end of the encounter, you gain a bonus to speed and saving throws equal to your Intelligence modifier (minimum 1).

---

**Eldritch Storm**

Page 95: Add the following second sentence to the path feature: “If you do so, your eldritch blast gains the lightning keyword for the attack.”

**Eldritch Storm (11th level):** You can choose to have your eldritch blast deal lightning damage. If you do so, your eldritch blast gains the lightning keyword for the attack.

---

**Storm Pillar**

Page 101: In the third sentence of the Effect line, add “on its turn” after “adjacent to the pillar.” The intent is that the pillar provides a controlling effect on the battlefield, and this prevents it from being used in conjunction with forced movement to deal a disproportionate amount of damage.

---

**Storm Pillar**

**Wizard Attack 1**

A crackling column of lightning appears amid your enemies, lashing out at any who move near it.

**At-Will ★ Arcane, Conjuration, Implement, Lightning**

**Standard Action**

**Ranged 10**

**Effect:** You conjure a pillar of crackling energy in an unoccupied square within range. The pillar occupies 1 square and lasts until the end of your next turn. Each enemy that moves into a square adjacent to the pillar on its turn takes 1d6 + your Intelligence modifier lightning damage. Level 21: 2d6 + Intelligence modifier lightning damage.

---

**Grasping Shadows**

Page 102: On the Hit line, replace “2d8” with “1d8.”

---

**Grease**

Page 102: At the end of the power’s Miss line, add “This movement does not trigger this power’s attack.”

---

**Grease**

**Wizard Attack 1**

Slippery oil floods the ground under your foes, sending them tumbling to the ground.

**Daily ★ Arcane, Implement, Zone**

**Standard Action**

**Area burst 2 within 10 squares**

**Effect:** The burst creates a zone of slick grease that covers all horizontal surfaces until the end of the encounter. The zone is difficult terrain. You can make the following attack, using a square within the zone as the origin square.

**Free Action**

**Close burst 1**

**Trigger:** A creature enters the zone

**Target:** The triggering creature in burst

**Attack:** Intelligence vs. Reflex

**Hit:** You knock the target prone.

**Miss:** You slide the target 2 squares. This movement does not trigger this power’s attack.

---

**Phantasmal Terrain**

Page 103: On the range line, replace “Area burst 3” with “Area burst 2.”

---

**Phantasmal Assailant**

Page 105: On the Effect line, delete “you and.”
Visions of Avarice

Page 105: On the Sustain Minor line, remove the second sentence. The sustain line is problematic because it is unclear whether you are spending an additional minor action to make the attack, or you get to attack as part of the sustain.

Visions of Avarice

Wizard Attack 5

The illusion of a fabulous treasure appears out of thin air. Your enemies throw aside caution to seize it.

Daily ✦ Arcane, Illusion, Implement, Zone
Standard Action Area 1 square within 10 squares
Effect: The power's area becomes a zone of illusory treasure that lasts until the end of your next turn. Once per turn, you can make the following attack, using the zone as the origin square.

Minor Action Close burst 5
Target: Each enemy in burst
Attack: Intelligence vs. Will
Hit: The zone pulls the target 3 squares. A target that ends this movement within the zone or adjacent to the zone is immobilized (save ends).

Sustain Minor: The zone persists.

Illusory Wall

Page 107: Add the “Implement” keyword to the power.

The power should be a daily utility power, not an encounter utility. Replace the “encounter” usage with “daily.”

At the end of the second sentence on the Effect line, add “, and it lasts until the end of your next turn.” The wall lacks a duration.

Illusory Wall

Wizard Utility 10

A seemingly solid wall materializes before your foes, dividing the battlefield with your convincing illusion.

Daily ✦ Arcane, Illusion, Implement
Standard Action Area wall 8 within 20 squares
Effect: You create the illusion of a contiguous wall of solid material (stone or metal, for example). The wall can be up to 4 squares high, and it lasts until the end of your next turn. The wall blocks line of sight for all enemies (but not your allies). Whenever an enemy moves adjacent to the wall, you can make an Intelligence vs. Will attack against that enemy. If the attack hits, the enemy cannot move through the wall on its current turn, but it can try again on later turns. If the attack misses, the wall no longer blocks line of sight or movement for that creature.

Sustain Minor: The wall persists.

Planar Gateway

Page 117: In the power's attack component, replace “Free Action” with “Opportunity Action.”

In the Trigger line, replace “in the planar gateway” with “adjacent to the planar gateway.”

These changes prevent a character from using the power's sliding effect to repeatedly trigger the attack on the same creature.

Planar Gateway

Bonded Summoner Attack 11

You create a rift between the planes, drawing raw power through it that tumbles your enemies about like skittles.

Encounter ✦ Arcane, Conjuration, Implement
Standard Action Ranged 10
Effect: You conjure a planar gateway that occupies 1 square within range and lasts until the end of your next turn. You can make the following attack, using the gateway’s square as the origin square.

Opportunity Action Close burst 1
Trigger: A creature starts its turn adjacent to the planar gateway or enters a square adjacent to the planar gateway
Target: The triggering creature in burst
Attack: Intelligence vs. Reflex
Hit: 3d6 + Intelligence modifier damage, and you slide the target 3 squares.

Arcane Implement Proficiency

Page 124: In the first sentence of the first paragraph of the Benefit line, remove “other than your own.” The former text was too limiting for multiclassing arcane characters.

Benefit: Choose a kind of implement associated with any arcane class. You can use that kind of implement with your arcane powers.

If that implement is also a weapon, you do not add the weapon's proficiency bonus to attack rolls made while you wield it as an implement.

Quickened Spellcasting

Page 135: Add “that you know and” after “arcane at-will attack power” on the Benefit line. The feat's current text allows you to pick any power, including one from a different class or one from your class that you don't actually have.

Benefit: Choose an arcane at-will attack power that you know and that is used as a standard action. Once per encounter, you can use that power as a minor action.

Bardic Ritualist

Page 136: Add the following line: “In addition, you can wield bard implements.” The multiclass feat should provide proficiency with the relevant class' implement.

Benefit: You gain training in the Arcana skill.
You gain the bard's Bardic Training class feature. In addition, you can wield bard implements.
Heart of the Blade
Page 136: Add the following line: “In addition, you can wield swordmage implements.” The multiclass feat should provide proficiency with the relevant class’ implement.

Benefit: You gain training in the Athletics skill or the Endurance skill.
You gain the swordmage’s Swordbond class feature.
In addition, you can wield swordmage implements.

Learned Spellcaster
Page 136: Add the following line: “In addition, you can wield wizard implements.” The multiclass feat should provide proficiency with the relevant class’ implement.

Benefit: You gain training in the Arcana skill, the Nature skill, or the Religion skill.
You gain the wizard’s Ritual Casting class feature.
In addition, you can wield wizard implements.

Soul of Sorcery
Page 136: Add the following line: “In addition, you can wield sorcerer implements.” The multiclass feat should provide proficiency with the relevant class’ implement.

Benefit: Choose acid, cold, fire, force, lightning, necrotic, poison, psychic, radiant, or thunder. You gain resist 5 to that damage type.
In addition, you can wield sorcerer implements.

Student of Malediction
Page 136: Add the following line: “In addition, you can wield warlock implements.” The multiclass feat should provide proficiency with the relevant class’ implement.

Benefit: Once per encounter, you can use the Warlock’s Curse class feature. The curse ends the first time you deal the extra damage from Warlock’s Curse.
In addition, you can wield warlock implements.

Book Imp
Page 140: In the Constant Benefits section, replace “You can read and speak Infernal” with “You can read and speak Supernal.” Infernal is not a language in D&D 4th edition.

Constant Benefits
You gain a +2 bonus to Arcana checks and History checks.
You can read and speak Supernal.
You gain resist fire 5. If you already have resist fire, increase your resistance by 2.

Spider
Page 141: In the Constant Benefits section, replace “Climb checks” with “Athletics checks to climb.” A “climb check” is not a type of check you can make.

Constant Benefits
You gain a +2 bonus to Athletics checks to climb.
Enemies take a –1 penalty to saving throws against your arcane powers that immobilize or slow them.

Archlich
Page 143: In the second sentence of the Archlich’s Phylactery feature, replace “drop to 0 hits points or fewer” with “die.” The intent is that the feature triggers when you die. The former text forced a character to be removed from the battlefield despite the fact that allies might be able to heal him or her.

Archlich’s Phylactery (21st level): You create a magical receptacle that contains your life force. When you die, you and your possessions crumble to dust. A day later, you reappear alive with maximum hit points in a space adjacent to your phylactery, with all your possessions.

Turnabout
Page 147: Replace the feature’s text with the following text. The feature was revised for balance.

Turnabout (21st level): When you roll initiative at the start of an encounter, you designate one creature within your line of sight as the target of your Turnabout feature until the end of the encounter. Once during the encounter, when the target’s attack places an effect that a save can end on one of your allies within your line of sight, you can use an immediate reaction to place the same effect on the target until the end of the target’s next turn.

Balanced Sum
Page 147: Replace the feature’s text with the following text. The feature was revised for balance.

Balanced Sum (24th level): Once per day when an enemy’s attack drops you to 0 hit points or fewer, you regain hit points equal to your healing surge value after taking the damage. In addition, you gain temporary hit points equal to the damage that reduced you to 0 hit points or fewer.

Magic Items: Tomes
Page 151: Add the following sentence after the first to paragraphs introducing tomes. Nonmagical tomes are not provided with a price.

You can purchase a nonmagical tome for 7 gp. A nonmagical tome confers no special benefit.
In the third sentence of the ritual's description, replace “four times your level in square feet” with “your level in squares on a side.” The former text applies to an area that is too small to be of any use.

You ask questions of and receive verbal answers from a single room or area. Your Arcana check result determines the number of questions you can ask. The room or area can be no larger than your level in squares on a side. The room knows what has happened inside it for its entire existence, but it is incapable of making any judgments or analysis.

OLD UPDATES

ANGEL OF RETRIEVAL
Page 8: Add “10” after “Blindsight” on the angel’s senses line. The blindsight lacked a range.

Initiative +20 Senses Perception +22; blindsight 10

ANGEL OF LIGHT
Page 9: In the death burst power, add “; 10 radiant damage” after “Fortitude.” This adds the missing damage expression to the power.

Death Burst (when the angel of light drops to 0 hit points) ◆ Radiant
The angel of light explodes in a burst of radiant light: close burst 10; targets enemies; +26 vs. Fortitude; 10 radiant damage.
Effect: Angels in the burst gain 10 temporary hit points.

EARTH ARCHON SEISMIC STRIKER
Page 14: In the archon’s combat superiority ability, the duration of the immobilized condition should be “until the end of the seismic striker’s next turn.” The ability lacked a duration.

Combat Superiority
An earth archon seismic striker gains a +5 bonus to opportunity attack rolls and immobilizes a creature that it hits with an opportunity attack until the end of the seismic striker’s next turn.

BEHIR
Page 22: In the devour power, replace “Sustain Minor” with “Sustain Free” and replace “takes 15 damage” with “takes 10 damage.” This change ensures that the behir need not spend each of its single standard actions granted by lightning reflexes to sustain devour.

Devour (standard; recharges when no creature is affected by this power)
Reach 3; +19 vs. Reflex; 2d8 + 6 damage, and a Medium or smaller target is swallowed. A swallowed target is grabbed and restrained. A swallowed creature has line of sight and line of effect only to the behir, and no creature has line of sight or line of effect to it. A creature that escapes the grab is no longer swallowed and appears in a space adjacent to the behir. A behir can move normally while it has a target grabbed in this way. When the behir dies, the target can escape as a move action, appearing in the behir’s former space. Sustain Free: The behir sustains the grab, and the target takes 10 damage.

BEHIR STORMSTEED

ELADRIN ARCANE ARCHER
Page 96: In the scorching arrows power, replace the attack text with the following: “The eladrin arcane archer makes the following attack twice: ranged 20/40; +10 vs. AC or Reflex (whichever is lower); 1d10 damage plus 1d6 fire damage.” The power’s former text was recursive, and this change corrects the problem.

Scorching Arrows (standard; at-will) ◆ Fire, Weapon
The eladrin arcane archer makes the following attack twice: ranged 20/40; +10 vs. AC or Reflex (whichever is lower); 1d10 damage plus 1d6 fire damage.

STONE GIANT RUNECARVER
Page 125: In the runecarver’s rune of stony sleep power, the penalty to saving throws caused by the zone should last “until the end of the runecarver’s next turn.” The effect lacked a duration.

Rune of Stony Sleep (standard; recharge 6) ◆ Zone
Area burst 1 within 10; +21 vs. Fortitude; 2d8 + 6 damage, and the target is slowed (save ends). First Failed Saving Throw: The target is petrified instead of slowed (save ends). Effect: The burst creates a zone of magical runes that lasts until the end of the encounter. Each enemy that starts its turn within the zone takes a –2 penalty to saving throws against slowed and immobilized until the end of the runecarver’s next turn.
Wereboar
Page 158: In the Hit Points line, replace “Bloodied 33” with “Bloodied 30.” The bloodied amount is incorrect.

**Slaughterstone Slicer**
Page 187: In bloodied bladestorm, replace the attack’s text with the following: “The slaughterstone slicer uses whirling bladestorm.” The former text was incorrect because whirling bladestorm is not a recharge power.

**Herald of Hadar**
Page 196: In the hungry claws power, replace the attack’s text with the following: “The herald of Hadar makes the following attack twice: +18 vs. AC; 1d10 + 5 damage.” The power’s former text was recursive, and this change corrects the problem.

**Troglodyte Deepscourge**

**Wood Woad**
Page 214: In the wood woad’s nature’s mystery power, replace “(a free action on the target’s turn)” with “as a minor action. As a free action, there is no limit to or penalty for the number of skill check a character can attempt.”
New Updates

MROR STALWART

Page 92: In the Benefit entry, delete “feat.” This change ensures that this feat continues to provide a benefit despite changes to the Weapon Expertise feat.

Benefit: At the start of your turn, you gain a +1 bonus to attack rolls using axes and hammers until you move.

Old Updates

MAGIC WEAPON

Page 47: On the Hit line, add “power” before the second occurrence of “bonus.” The discrepancy in the bonus types makes the bonuses more difficult to track. The change also limits damage bonus stacking.

MAGIC WEAPON

Your attack issues a burst of magical energy that enhances the weapons of allies close to you.

At-Will ✦ Arcane, Weapon
Standard Action Melee or Ranged weapon
Target: One creature
Attack: Intelligence + 1 vs. AC
Hit: 1[W] + Intelligence modifier damage, and each ally adjacent to you gains a +1 power bonus to attack rolls and a power bonus to damage rolls equal to your Constitution or your Wisdom modifier until the end of your next turn.
Level 21: 2[W] + Intelligence modifier damage, and a +2 power bonus to attack rolls.

BOLSTER ARMOR

Page 48: Add “until the end of the encounter” to the end of the first sentence. The power lacked a duration.

BOLSTER ARMOR

You touch some armor, causing it to glow as you enhance its defenses.

Daily ✦ Arcane
Minor Action Melee touch
Target: Your or one ally
Effect: The target gains a +1 power bonus to AC until the end of the encounter. When hit by an attack, the target can end this bonus as a free action to gain a +4 bonus to AC against that attack.

BRITTLE-SKIN MISSILE

Page 51: Beneath the Hit line, add “Miss: Half damage, and the target is slowed (save ends).” The power was supposed to have miss effect.

Reinforcing Healing

Page 94: In the Benefit line, add “using an artificer power” after “restore hit points to an ally.” The power is not intended to be combined with other leader classes through multiclassing or hybrid classing.

Benefit: Whenever you restore hit points to an ally using an artificer power, that ally gains a +2 bonus to all defenses until the end of your next turn.

Double Weapons

Page 95: Apply the following change to the Double Weapons table. These changes clarify that certain weapon properties are intended to apply only to specific ends of weapons. The changes also expand the description of two-handed weapons and bring them in line with attack and damage expectations.

Also, the Stout keyword is defined as follows: A weapon that has the stout property can be treated as a two-handed weapon.

Talenta Sharrash

Page 95: Add the “small” property to the weapon. The weapon has explanatory text that should have been represented by the small property. Adding the property ensures that feats, powers, and so forth apply to the weapon as well.

Warforged Components

Page 113: In the last sentence of the first paragraph, delete “and takes five minutes.” In its place, add the following sentence: “Affixing or removing an embedded component takes 5 minutes.” The text was unclear whether attached components take a minor action or 5 minutes, and it didn’t discuss what embedded components require.

While you are conscious, an affixed warforged component can be removed from you only if you are willing to have it removed. While you are unconscious, a component can be removed by anyone. Affixing or removing an attached component is a minor action. Affixing or removing an embedded component takes 5 minutes.

Double Weapons

Page 95: This sidebar helps explain double weapons.

DOUBLE WEAPONS

Double weapons share the following traits.

✦ You must wield a double weapon in two hands to use it.

✦ A Small character cannot wield a double weapon unless the weapon has the small property.

✦ Wielding a double weapon is like wielding a weapon in each hand. In the table, the first line of the double weapon’s entry describes the end of the weapon wielded in your main hand. The indented line describes the weapon’s other end, wielded in your off-hand. The two ends of a double weapon can have different proficiency bonuses, damage, properties, and weapon groups. The weight and price entries represent the total for the weapon, rather than only one side.

✦ When adding an enchantment that requires a particular weapon type, at least one end of the weapon must match the requirement. For example, an urgrosh could gain the vorpal enchantment, even though only one end meets the requirement of “heavy blade or axe.”

✦ An enchanted double weapon gains all benefits of the enchantment on each end (even if one end would not normally qualify for the enchantment). This does not increase the frequency of use of any power possessed by the item; if you wield a double weapon with a daily power you can still only activate that power once per day.
Delete the last line of the Implement section. The staff is a one-handed implement. It can be embedded in one hand and used as an implement, but it cannot be used as a weapon because a quarterstaff is a two-handed weapon.

**Shield of Fellowship**

Page 110: Add a line to the end of the property that reads “The hit points you transfer to an ally cannot be transferred again in any way.” Two or more of these shields can create a loop that gives characters infinite temporary hit points by transferring them back and forth to each other. This change prevents that abuse.

**Shield of Fellowship**

Polished to a bright sheen, this shield has magic that helps you share your resilience with allies.

**Gauntlets of Magical Interchange**

Page 129: Remove the Polymorph keyword from the item’s power. This item creates an adverse combination with *ring of many forms*, which provides an untyped bonus to attack rolls when you use a polymorph power. Also, this keyword does not make sense in the context of the polymorph keyword definition, which only talks about a PC transforming, not an item.

**Gauntlets of Magical Interchange**

These gauntlets magically extrude a variety of useful tools and allow you to restore the magic of other items in the thick of combat.

DIVINE POWER

NEW UPDATES

HOLY ARDOR
Page 20: Add “and hit the target of your attack” after “oath of enmity.” This change clarifies that you must still hit the target to score the critical hit. You might not, for example, score a critical if you roll two 2s.

Holy Ardor (11th level): Whenever you make two attack rolls because of your oath of enmity and hit the target of your attack, you score a critical hit if both dice have the same roll, except if both rolls are 1.

PACIFIST HEALER
Page 136: In the last sentence of the feat, replace “whenever you deal damage to a bloodied enemy” with “whenever you hit or miss a bloodied enemy and deal damage to it.” The previous text included ongoing damage and other damaging effects. This correction clarifies the intent.

Benefit: When you use a divine power that allows a target to spend a healing surge, the target regains additional hit points equal to 1d6 + your Charisma modifier. The additional hit points increase to 2d6 + your Charisma modifier at 11th level, and to 3d6 + your Charisma modifier at 21st level.

Also, whenever you hit or miss a bloodied enemy and deal damage to it, you are stunned until the end of your next turn.

FIST OF HEAVEN
Page 141: In the Benefit entry, add “against your avenger powers and your avenger paragon path powers.” This saving throw limitation is part of a larger effort to mitigate the use of saving throw penalties to lock down enemies for the duration of an encounter.

Benefit: Your oath of enmity target takes a –2 penalty to saving throws against your avenger powers and your avenger paragon path powers.

DIVINE MIRACLE
Page 152: Replace the feature's text with the following text: “The first time you expend your last remaining encounter attack power during an encounter, you regain the use of one encounter attack power of your choice.” This change is necessary to prevent recursive attacks through action-granting powers, such as trip up, follow-up blow, and steal time.

Divine Miracle (30th level): The first time you expend your last remaining encounter attack power during an encounter, you regain the use of one encounter attack power of your choice.

OLD UPDATES

DAY’S FIRST LIGHT
Page 7: Add “Target: One creature” above the Attack line. The power had no Attack line.

WINGS OF VENGEANCE
Page 12: Replace “Move Action” with “Minor Action.” The power is not a move action because it does not let you move.

ARDENT CHAMPION PATH FEATURES
Page 20: At the end of the Ardent Action path feature, add “before or after the extra action.” The timing of shift was unclear. This change syncs up with other shifting associated with path features.

Ardent Action (11th level): When you spend an action point to take an extra action, you can also make a saving throw or shift a number of squares equal to your Dexterity modifier before or after the extra action.

LIFE TRANSFERENCE
Page 33: Change this power to a daily power. Multiple clerics or multiclassed clerics in a party can use this power to generate infinite free hit points.

Life Transference: Bruises and lacerations appear on your body as they vanish from your patient.
Hymn of Resurgence
Page 33: At the end of the first sentence of the Hit line, add “until the end of your next turn.” Also, in the Effect line, change “burst” to “blast” to match the power’s attack type. The effect lacks a duration, and the mention of the burst is a typo.

**Hymn of Resurgence**  
*Cleric Attack 3*

Your foes’ resolve crumbles as your hymn bestows divine vigor on your allies.

**Encounter** ✦  
*Divine, Implement*

**Standard Action**  
*Close blast 5*

**Target:** Each enemy in blast

**Attack:** Wisdom vs. Fortitude

**Hit:** The target takes a –2 penalty to all defenses until the end of your next turn. When any ally hits the target before the end of your next turn, the target is knocked prone.

**Effect:** Each ally in the blast can choose either to gain 5 temporary hit points or to make a saving throw.

Angel’s Rescue
Page 37: On the Attack line, replace “Wisdom” with “Strength.” The power is not using the correct ability score for the attack.

**Angel’s Rescue**  
*Cleric Attack 13*

You invoke an angel’s name to lend strength to your attack and carry your ally out of danger.

**Encounter** ✦  
*Divine, Weapon*

**Standard Action**  
*Melee weapon*

**Target:** One creature

**Attack:** Strength vs. AC

**Hit:** 3[W] + Strength modifier damage.

**Effect:** You slide an ally who is adjacent to you or to the target 2 squares.

**Special:** When charging, you can use this power in place of a melee basic attack.

Compassionate Healer Path Features
Page 47: In the second sentence of the Compassionate Blessing path feature, replace “the power’s target” with “one of the power’s targets.” This change helps limit the potency of the feature for healing powers that target multiple creatures.

**Compassionate Blessing (11th level):** When you restore hit points with a healing power, you can choose to take 5 damage. If you do, one of the power’s targets regains 2d6 additional hit points, and you gain a +2 power bonus to all defenses until the end of your next turn.

Holy Emissary Path Features
Page 48: In the Gift of Hope path feature, replace “a bonus to saving throws equal to your Wisdom modifier” with “a +2 bonus to saving throws.”

In addition, in the Gift of Grace path feature, replace “Wisdom” with “Charisma.”

These features were too powerful for a class that uses Wisdom as a primary ability score.

**Gift of Hope (11th level):** Any ally who ends his or her turn adjacent to you gains a +2 bonus to saving throws until the start of his or her next turn.

**Gift of Grace Action (11th level):** When you spend an action point to take an extra action, each ally adjacent to you also gains a bonus to all defenses equal to your Charisma modifier until the end of your next turn.

Rain of Blood
Page 61: Replace “Area burst 2” with “Area burst 1.” Also, on the Hit line, replace “2d6” with “1d6.” This power is too powerful compared to powers of the same level. This change puts the power in line with design expectations.

**Rain of Blood**  
*Invoker Attack 7*

Blood rains down from the sky, pelting your enemies.

**Encounter** ✦  
*Divine, Implement*

**Standard Action**  
*Area burst 1 within 10 squares*

**Target:** Each enemy in burst

**Attack:** Wisdom vs. Fortitude

**Hit:** 1d6 + Wisdom modifier damage, and the target gains vulnerable 5 to all damage until the end of your next turn.

**Covenant of Wrath:** Until the end of your next turn, each ally in the burst gains a power bonus to attack rolls equal to your Constitution modifier.

Prayer of Vengeance
Page 62: In the second sentence of the power’s Effect line, replace “start” with “end.” The duration of the bonus in the power’s former text meant that an ally would rarely gain the benefit of the zone.

**Prayer of Vengeance**  
*Invoker Utility 10*

You recite the ancient declaration of war against the primordials. Friends who hear it are filled with righteous indignation against their attackers.

**Daily** ✦  
*Divine, Zone*

**Minor Action**  
*Close burst 3*

**Effect:** The burst creates a zone of retribution that lasts until the end of your next turn. When any ally within the zone takes damage from an attack, that ally gains a +2 power bonus to attack rolls against the attacker until the end of the ally’s next turn.

**Sustain Minor:** The zone persists.
Pennant of Heaven's Armies
Page 64: Remove the bonus to defenses and replace “Wisdom” with “Intelligence” in the last sentence of the effect. The bonus exceeds our design expectations. As a Wisdom primary character, an invoker that uses this power is providing a bonus to defenses and damage rolls that dwarfs the benefits that most leader classes can provide.

Divine Hand Path Features
Page 73: The Undaunted path feature should read “You gain a +2 bonus to saving throws against fear effects and a +2 bonus to all defenses against fear attacks.” The former text isn’t clear that the bonus to saving throws is against fear effects and not a general bonus to saving throws.

Undaunted (11th level): You gain a +2 bonus to saving throws against fear effects and a +2 bonus to all defenses against fear attacks.

Ray of Reprisal
Page 88: Add “modifier” between “Charisma” and “radiant” on the Hit line. The word was incorrectly left out of the power.

Castigating Strike
Page 89: On the Hit line, replace 1[W ] with 3[W ]. Castigating strike was much worse than its lower level counterpart, valorous strike, on page 84.

Censuring Radiance
Page 92: On the Hit line, replace “Strength” with “Charisma.” The ability scores on the Hit line and Attack line didn’t match.

Harsh Verdict
Page 93: On the Hit line, replace “Strength” with “Charisma.” The ability score on the Hit line didn’t match the one on the Attack lines.

Harsh Verdict
Paladin Attack 25
You judge one of your enemies in the name of your god, and none of its companions can hide from your wrath.

Daily + Divine, Radiant, Weapon
Standard Action Melee weapon
Primary Target: One creature
Primary Attack: Charisma vs. Will
Hit: 3[W ] + Charisma modifier damage.
Miss: Half damage.
Effect: Make a secondary attack that is a close burst 1 centered on the primary target.
Secondary Target: The primary target and each enemy in burst
Secondary Attack: Charisma vs. Will
Hit: The secondary target takes ongoing 10 radiant damage and cannot benefit from concealment or total concealment (save ends both).
Power of Destruction
Page 111: In the first sentence of the second paragraph of the Benefit line, replace “you gain a +2 bonus to the damage roll” to “you deal 2 extra damage.” In the subsequent sentence, replace “bonus” with “extra damage” and remove the “+” symbols. This text needed to be changed to extra damage because the feat provides a benefit to grasping shards, which doesn’t have a damage roll until level 21.

**Benefit:** You gain a +2 feat bonus to Intimidate checks.

When you use a power associated with this feat and hit an unbloodied enemy with it, you deal 2 extra damage. The extra damage increases to 3 at 11th level and 4 at 21st level.

Power of Poison
Page 117: In the second sentence of the second paragraph of the Benefit line, replace “you gain a +2 bonus to the damage roll” to “you deal 2 extra damage.” In the subsequent sentence, replace “bonus” with “extra damage” and remove the “+” symbols. This text needed to be changed to extra damage because the feat provides a benefit to grasping shards, which doesn’t have a damage roll until level 21.

**Benefit:** You gain a +2 feat bonus to Bluff checks.

When you use a power associated with this feat, you can choose to change its damage type to poison (the power gains the poison keyword and loses the keywords of its former damage types). If you do so, you deal 2 extra damage. The extra damage increases to 3 at 11th level and 4 at 21st level.

Power of Undeath
Page 121: In the third sentence of the second paragraph of the Benefit, replace “you gain a +2 bonus to the damage roll” to “you deal 2 extra damage.” In the subsequent sentence, replace “bonus” with “extra damage” and remove the “+” symbols. This text needed to be changed to extra damage because the feat provides a benefit to grasping shards, which doesn’t have a damage roll until level 21.

**Benefit:** You gain a +2 feat bonus to Religion checks.

When you use a power associated with this feat and hit a bloodied enemy with it, you deal 2 extra damage. The extra damage increases to 3 at 11th level and 4 at 21st level.

Solar Enemy
Page 120: In the feat’s power, add “until the end of your next turn” to the beginning of the Effect line. The effect lacked a duration.

Devoted Paladin
Page 131: Remove “When you select this feat,” from the second paragraph of the Benefit line. A person can abusive the former text to let them gain a healing surge every time they “select” the feat. Thus, when a character retrain out of it, the healing surge remains, and when that character “selects” the feat again at next level, he or she gains another healing surge.

**Benefit:** When you use your lay on hands on an ally, that ally regains additional hit points equal to your Charisma modifier.

Your number of healing surges increases by one.

Call of Virtue
Pages 133, 136, 139, 140, 142: All mention of the “call of virtue” power on the noted pages should be changed to “virtue’s touch.” This corrects the discrepancy in names.

Honored Foe
Page 139: Replace “When a creature marked by you” with “When a creature marked by your divine challenge or divine sanction.” This prevents abuse by defenders who might multiclass into paladin to gain this feat.

**Benefit:** When a creature marked by your divine challenge or divine sanction damages you, you gain temporary hit points equal to your Wisdom modifier.

Hero of Faith
Page 144: Replace the second sentence of the second paragraph with the following text. This change is necessary to limit the power of this feat.

“The effect lasts until you hit the target or until the target drops to 0 hit points. You cannot switch the target or extend the duration of the power in any way.”

**Benefit:** You gain training in one skill from the avenger’s class skills list.

Once per encounter, you can use the oath of enmity power. The effect lasts until you hit the target or until the target drops to 0 hit points. You cannot switch the target or extend the duration of the power in any way.

In addition, you can wield avenger implements.
PRIMAL POWER

NEW UPDATES

CERTAIN SAVAGERY
Page 27: Replace the second sentence of the feature with the following text: “If you miss every target, you don’t expend rage strike. In addition, when you miss with rage strike, you don’t deal half damage.” This change takes into account the Explosive Rage feat, which makes rage strike a close attack.

Certain Savagery (11th level): You don’t need to be raging to use rage strike. If you miss every target, you don’t expend rage strike. In addition, when you miss with rage strike, you don’t deal half damage.

CREEPING DOOM

Eagle Summons the Fire (11th level): You can determine line of sight and line of effect for ranged attacks and area attacks from your spirit companion.

SPRING’S DAWNING
Page 85: Delete the second sentence of the Hit entry. Add an Effect entry below the Hit entry that reads: “Effect: The first time you hit a target when you use this power, each ally can make a saving throw with a +2 power bonus.” The power’s intent is to grant a saving throw to each ally once. As a close attack, the effect on the Hit entry might trigger multiple times. This change ensures that the effect occurs only once each time you use the power.

**Explosive Rage Strike**

Page 143: Replace the second sentence of the Benefit entry with the following sentence: “If you do so, the power becomes a close burst 1 that targets each enemy that you can see in the burst.” This change clarifies how changing rage strike into a close burst affects the power’s Target entry.

ENCOUNTERS WITH THE OLD MAN
Page 205: In the first sentence of the fifth paragraph of the section, replace “against Bahamut while he” with “in which Bahamut.” The original text is confusing, because it discusses a fight against Bahamut. The rest of the paragraph addresses XP awards while Bahamut is fighting alongside the characters. This change clarifies the intent.

Although a fight in which Bahamut is at the characters’ side is a good tactical test, it’s not worth the full XP award for an encounter ten levels higher.

**Power (Daily):** Free Action. Use this power as you use your *dragon breath* power. Your dragon breath becomes an area burst 1 within 10 squares for this attack.

**Level 22 or 27:** Area burst 2.
New Updates

Some of these changes also affect Dragon Annual.

Dragon 366
Caiphon’s Guidance, Page 24
Replace the feature’s text with the following text:
“Your fear or radiant warlock powers and student of Caiphon powers score critical hits on rolls of 18–20.”
The expanded critical range should apply to radiant or fear powers (as opposed to powers that have both keywords), but it should not apply to other class’ powers. This limits players from taking the paragon just to gain the generous critical range.

Dragon 367
Flickering Shroud, Page 38
In the Benefit entry, delete “saving throws.” The text is incorrect.

Claw Fighter, Page 54
Replace the feat’s Benefit text with the following text, incorporating the December changes. This change revises the claws to have the off-hand property, synchronizing it with the monk and resolving issues with how it is possible to wield two non-off-hand weapons. However, this change does fix issues with the swordmage, which requires a hand free to gain the benefit of its aegis. As the text stands, a gnoll with this feat cannot gain the +3 benefit of the aegis because it is considered to always have a weapon in each hand.

“Then you make a weapon attack, you can use your claw, which is a weapon in the light blade weapon group. This weapon has the off-hand weapon property and a +3 proficiency bonus, and it deals 1d6 damage. While you aren’t holding anything, you are considered have this weapon in each hand. You can enchant and disenchant your claws. When you disenchant your claws, they do not turn to dust.”

Dragon 369
Hell’s Implement, Page 55
In the Benefit entry, replace the text with “You can use a polearm as a warlock implement.” This change synchronizes this feat with Player’s Handbook 3 clarifications to implements and weapons.

Dragon 372
Lingering Cold, Page 45
In the second sentence of the feature, replace “–5” with “–2.” In addition, in the third sentence of the feature, replace “vulnerable cold 15” with “vulnerable 10 cold.” Both changes reduce the strength of this feature. The saving throw limitation is part of a larger effort to mitigate the use of saving throw penalties to lock down enemies for the duration of an encounter. The vulnerability adjustment prevents high damage yield with frost weapon and similar damage-changing effects.

Frozen in Ice, Page 45
Inside the parentheses at the end of the feature, replace the text with “save ends.” This change reduces the feature’s strength, preventing the ability to effectively kill any creature.

Dragon 380
Extra Corrupt Manifestation, Page 20
In the second sentences of the Benefit entry and Special entry, replace “corrupt manifestation” with “elemental manifestation.” This change allows a character with the feat to switch between corrupt and noncorrupt manifestations.

Dragon 381
Winged Horde, Page 66
In the Hit and Level 21 entries, delete “+ Intelligence modifier.” This change reduces the strength of the power to compensate for its other benefits, such as the power’s effect and its ability to target only enemies. This revision makes other wizard powers more competitive choices when compared to this power.

Frost of Letherna, Page 71
In the power’s Effect, add “until the end of its next turn” to the end of the second sentence, and delete the last sentence. This change reduces the power’s strength and prevents the immobilization from being recursive.

Dice of Auspicious Fortune, Page 83
In the item’s encounter power, replace the Effect line with the following text: “When you make an attack, instead of making an attack roll, you can use one of the results stored in the dice. Using the result removes the stored result from the dice.” This change limits the item’s strength by removing the ability to reroll and to know whether or not an attack will hit.

Old Updates

Dragon 365
Taunting Press, page 23
The Effect line should read “You slide the target 3 squares to a square adjacent to you.” This change prevents a player from using the power to slide an enemy throughout the battlefield.

Dragonborn Zeal page 28
Replace “Immediate Reaction” with “Immediate Interrupt”.

Draken Magazine
Dragon 366
Sacrifice to Caiphon, page 20
In the first sentence of the Benefit line, add “warlock” before “encounter power”.

Student of the Athanaeum, page 20
In the Benefit line, add “warlock” before “daily power”.

Starborn, page 25
In the first sentence of the destiny feature, replace “radiant fire damage” with “radiant damage and fire damage”.

Starburst, page 25
Replace “radiant fire damage” with “radiant and fire damage”.

Dragon 367
Alluring Lights, page 41
In the Hit line, replace “dazed” with “immobilized”.

Claw Fighter, page 54
Replace the last sentence in the feat’s Benefit section with the following: “You can enchant and disenchant your claws. When you disenchant your claws, they do not turn to dust.” The former text prevented the claws from scaling, thereby rendering them useless at higher levels.

Icy Sweep, page 57
On the Hit line, the slide should read “and you slide the target 3 squares to a square adjacent to you.” This change prevents a player from using the power to slide an enemy throughout the battlefield.

Dragon 368
Staff Fighting, page 58
In the feat’s Benefit section, replace the second line with the following: “As a double weapon, both ends of the weapon deal 1d8 damage. The primary end gains the defensive and stout properties, and the secondary end gains the off-hand property.” This change revises this feat to work with the new double weapon rules.

Binding Style, page 59
In the dual strike entry, add “secondary” in front of “target.” This change is necessary to make this benefit make sense with revised dual strike language.

Deft Hurler Style, page 60
In the cleave entry, add “against one creature other than the target of your cleave” to the end of the first sentence. The goal of this feat was to distribute damage, but the previous text allows a character to make the attack against the target of the cleave, thus focusing damage.

Starlight Duelist Style, page 61
In the dual strike entry, replace “the target” with “either target.” This change is necessary to make this benefit make sense with revised dual strike language.

Weapon Mastery Feats, page 65-66
Replace the second and third paragraphs with the following: “Weapon mastery feats are multiclass feats based around a single weapon. Each initial multiclass feat—such as Bola Training—is considered a class-specific multiclass feat, with the named weapon acting as the specific class. As with other class-specific multiclass feats, once you take one, you can’t take one for a different class (or weapon, or style) unless another rule another rule allows you to do so.”

Bola Training, page 66
In the brackets after “Multiclass,” add “Bola”.

Net Training, page 66
In the brackets after “Multiclass,” add “Net”.

Whip Training, page 67
In the brackets after “Multiclass,” add “Whip”.

Dragon 369
Caging Glaive, page 54
The Effect line should read “Before the attack, slide the target 3 squares to a square adjacent to you.” This change prevents a player from using the power to slide an enemy throughout the battlefield.

Dragon 372
Spiked Chain Training, page 11
In the brackets after “Multiclass,” add “Spiked Chain”.

In the feat’s Benefit section, replace the second two lines with the following: “You can treat the spiked chain as a double weapon. As a double weapon, each end of the spiked chain is a light blade and deals 2d4 damage. The primary end gains the stout property, and the secondary end gains the off-hand property.” This change revises this feat to work with the new double weapon rules.

Doomcaller’s Promise, page 14
On the Hit line and Miss line, delete “and the target suffers the effects of the Rattling keyword until the end of the encounter.”

Grasp of the Grave, page 24
In the second sentence of the Effect line, remove “and is dazed until the end of your next turn.” The previous power’s effect was overpowered.

Immortal Curse, page 43
Replace the feature’s Effect text with the following:
Once per round, when you score a critical hit against
the target of your immortal curse, you gain an extra
standard action. You must use the standard action
to attack the target of your immortal curse, and you
must use the action before the end of your next turn.

**Dragon 374**
**Orc Darkblade, page 36**
Replace the text of the elusive target power with the
following:

“The orc darkblade swaps positions with a creature
adjacent to it other than the triggering attacker. The
darkblade gains superior cover against the trigger-
ing attack, and it gains combat advantage against the
creature it swapped positions with until the end of its
next turn.”

**Deva Disincarnate, page 52**
Add “Ranged 10” to the beginning the disincarnate’s
spirit roots power. The power lacked a range.

**Power of Creation, page 92**
In the powers associated with the feat, replace “sacred
flame” with “righteous brand.” The text is inconsistent
with Divine Power, which uses righteous brand.”

NEW UPDATES

DUNGEON 160
Longsword of Summer (called also Weapon of Summer), Page 96
Replace the text on the Property line with the following text: “You gain a +3 item bonus to damage rolls made with this weapon. This bonus damage is fire damage.” This change brings the weapon in line with damage expectations.
